AYE BROTHERS

BLAIR, NEBR

**1921
SEED CORN CENTER OF THE WORLD**

Our Responsibility

JOHN R. AYE

Our Location

IT is only fair that you should know our standing as responsible business men. We wish to refer you to any bank in Blair, any business man, laboring man, mechanic, professional man or any boy or girl in and around Blair. Look us up in Dun's or Bradstreet's.

"Blair, Nebraska, county seat of Washington County, is to the CORN WORLD what the Red River of the North country is to the potato world. Blair is the **Seed Corn Center of the World**. This is a just claim, for more seed corn is sold within a radius of twenty miles of Blair than at any other point of the globe. The highest quality seed and small grains known come from Blair. The soil is the pure Loess variety of Glacial drift and is just the same, no matter how deep you go, until you strike water. Total crop failure is unknown. The seed corn is sent all over the world.

"The firm of Aye Bros., which has been selling seeds and poultry at Blair for 23 years, is known all over the world. It is largely due to the persistence and far-sightedness of the Aye Brothers—John R. and Adolph—that Blair today holds the distinction of being the greatest seed corn center of the world. Both men were born and raised in Blair and they have stuck to their native soil. They had faith in its wonderful richness, and years of faithful experimenting have produced for them the highest quality of seed corn known. They receive orders for their seed corn, wheat and grass seeds from all parts of the world and hold high testimonials from state universities and farmers all over the country. Most of the prizes awarded year after year at corn shows are from corn from Aye Bros.' seeds."—From the Omaha World-Herald.

How to Send Money

When ordering, please send P. O. Money Order. Draft, Express Money Order, or Check. Don't send money if you can help it. There are reasons for this. Here is one of them: Sometimes we get letters where parties forget to sign their names, and we don't know whom to send goods to, but if a P. O. Money Order, Express Order, or Draft is sent, we can always tell whom to send seed to. Please bear this in mind. But, if you can't get P. O. Money Order, Draft, or Express Order, of course send the money.

Send cash with order. If married women would use their husband's initials it would prevent trouble sometimes in correspondence. Single women should use the title "Miss" before their names.

What's in a Name?

OVER at Blair, Nebraska, there is a firm by the name of Aye Bros.—John R. and Adolph. As to the pronunciation of this name, unless you hear it spoken by those who know, one might emphasize by using the letter A. This is wrong. It is just plain I, or Eye. For a quarter of a century they have been selling seed corn and field seeds and high-grade poultry. While engaged in this business they have placed their town on the map as being the seed corn center of the world. Almost every state in the Union, has heard of or transacted business with this seed emporium, which is being recognized as the seed supply house of the Middle West, the name being a household word in this section. To say Aye Bros. have an "Eye" for business is perhaps the proper way to express it, with such expression echoing back with repeated and increasing orders from year to year and that is part of what is in a name.—Above was taken from "Echoes From the Highway."

About Prices

No one can tell exactly what the prices will be during the whole season, but we are getting out this catalog and price list, showing what the prices are now; and when you send order, if any seeds should go up or down, we will send you what amount your money will buy. These prices may remain during the whole season, but are subject to change without notice.

Our Guarantee:

Whenever you order from us and if anything is not exactly as we say it is, you can return it to us and get your money back. We give you ten days to examine and test our corn and other seeds. We demand money with order, but we give every buyer the privilege after he buys anything from us to say whether or not it is worth the money, and if you think not, fire the stuff right back to us and get your money back and **we will pay the freight one way.** We want you to feel as safe as if you were right here making a personal examination. We know that if you came here and could see our corn or anything else that we have to offer, it would take but a minute to make a deal. We cannot think of anyone who ever came here looking for seed corn that did not buy from us. But we know that everybody cannot come and make a personal examination and, therefore, we give you the privilege to keep our seed or send it back. Suit yourself. It is your money that you are spending and you certainly have the right to decide what you want to buy with it.

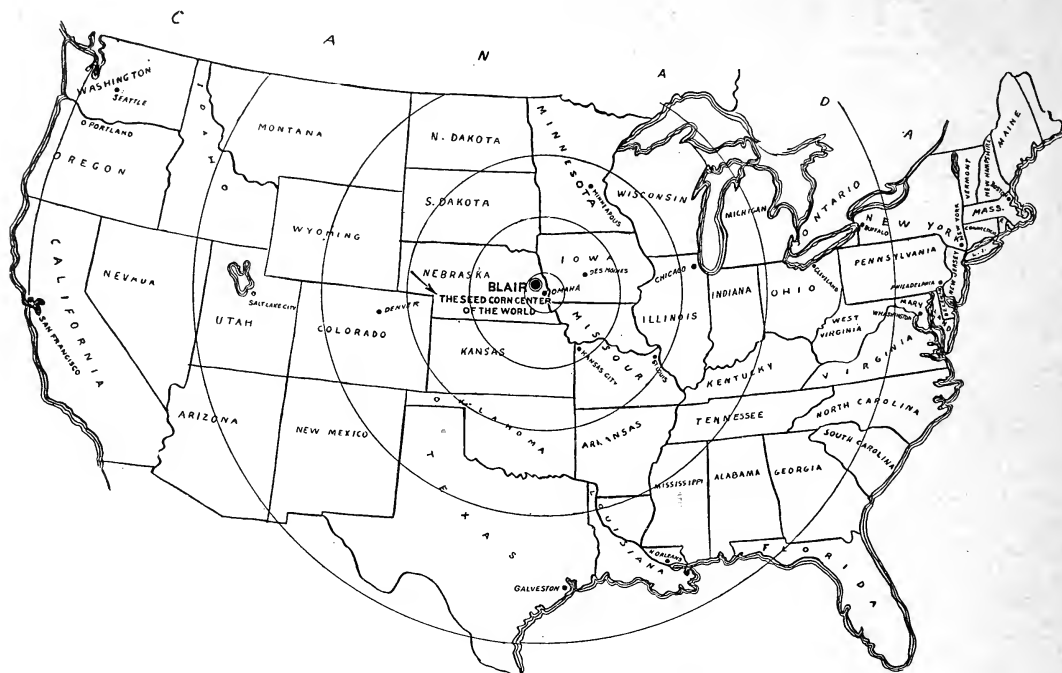

We are not perfect, and we know it. We sometimes make mistakes, and who is there that doesn't if they do anything at all. But when we do make a mistake, don't get mad and tell your neighbors how you have been skinned. Tell us your trouble and ninety-nine times out of a hundred we can fix it up all right. Just try, and see the quality of the seed we are sending out. We have one of the biggest high-class seed corn businesses in the world. No matter where you go, or how big a price you pay for your seed, you cannot find better corn than what you get from us.

We don't guarantee against floods, hail, frost, drought, etc. By that, we mean that we don't guarantee a crop.

You can keep any seed we send you ten days, test it in any way you wish and if for any reason it does not please you, return and get your money back. Where can you get a stronger guarantee? We make it strong. We know that our seeds will please you. Our responsibility ends with the acceptance of seeds. No responsible firm can make a stronger guarantee.

**"Seed Corn Center
of the World"**

**AYE BROS.
Blair, Nebr.**

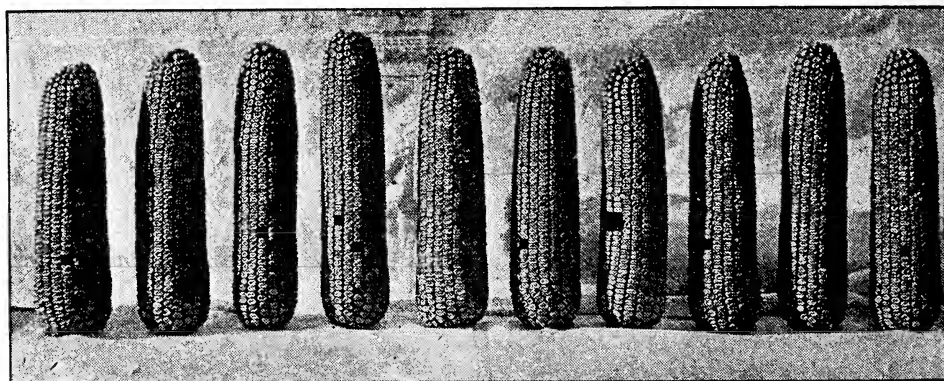

BLAIR, NEBRASKA—

"The Seed Corn Center of the World" and Why

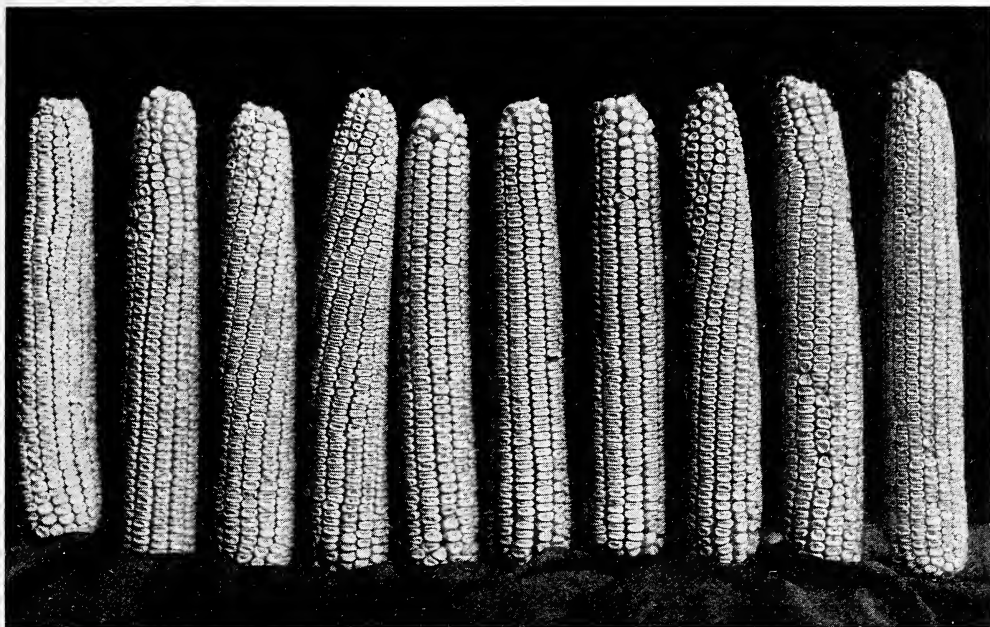

THE above map shows Blair, Nebraska, is practically in the center of the United States. It is not so much the geographical position we wish to call your attention to as much as that we are ideally located to produce the finest Seed Corn in the world. We are far enough north to escape the hot winds of the South, far enough east to get plenty of moisture to produce the very finest ears, far enough south to grow nearly every worth-while variety, and far enough west to thoroughly dry out the seed ears without artificial drying. There is undoubtedly more seed corn grown and sold within a radius of fifty miles of Blair, Nebraska, than any other spot in the world, hence the term of "Seed Corn Center of the World."

We have hundreds of letters from corn growers from the North, East, South and West in which they say they are very much pleased with results they got from the seed corn bought from us.

If in need of Seed Corn send us your order and we feel sure you also will be one of our many pleased customers.

We have furnished seed corn to our customers that produced lots of corn like above picture

Blair White Corn—Not a Show Corn, But a Big Yielding Variety—Early

Blair White or Universal Corn

The Sensational Corn—90 to 95 Day Corn

IN BLAIR WHITE CORN we have something that lots of breeders of corn thought could not be done. We have produced an early corn that is a bigger yielder than the late varieties of corn. It is without a doubt the Sensational Corn of the age. There are lots of varieties of early corn but most of them do not yield well but in Blair White we have both earliness and big yield. Our customers report that they are getting bigger yields of Blair White than of any other variety, planted on same kinds of soil and given the same kind of cultivation and some growers started to husk on October 4th. Can you beat it? Almost every day we have local customers tell us how well they like the Blair White Corn and they are sorry they did not plant their whole field to this wonderful early, big yielding variety.

During the last eleven years we have had four years of soft corn but the Blair White got ripe every year and made a big crop. Just think of it, eleven years of solid sound feeding corn by planting Blair White when other big yielding varieties were soft four years out of the eleven. This is a record we are proud of for we introduced and improved this wonderful variety of corn. No matter how wet and cold the season has been Blair White has matured every year since we introduced it eleven years ago. We have not said much about it for we wanted to be sure of our ground but now we know where we are at and we want to tell the corn growing world about it. In 1915, the year of soft corn, when other varieties of corn yielded 30 to 50 bushels of soft, mushy, unmarketable corn per acre, Blair White yielded as high as 80 bushels of sound, solid corn and had a germination test of 91%. It also Out Yields other varieties in Extreme Dry years. Everybody remembers the dry year of 1918. Lots of fields of corn made from five to ten bushels per acre and our Blair White grown in fields adjoining, yielded from twenty-five to fifty bushels. It is the corn that can be depended on every year, wet or dry, hot or cold, on any kind of soil, under almost any condition, to yield a maximum crop of corn and that is what pays, a big crop of sound solid feeding corn from an acre.

Blair White Corn does better on poor land than other varieties for you get a nice medium sized ear on almost every stalk, very few nubbins. On heavy rich soil Blair White can be planted thicker than other varieties and you will get a good sized ear on almost every stalk. It adapts itself to all sections of the country, North, East, South and West and all conditions and kinds of soil.

Can be planted for the main crop or used for replanting. Has been planted as late as the last of June and big crops of matured corn have been reported. It is truly the Most Wonderful Corn we have ever had and our customers who bought a few bushels at first to try it, are now planting their whole acreage to this variety. You cannot possibly make a mistake in ordering Blair White Corn, either for your main crop or replanting. At one of the good County Fairs in Nebraska a lot of Blair White Corn was on exhibit and the Corn Judge was surprised at the large number of entries of this new variety and he inquired from the exhibitors what variety of corn it was and said a class ought to be made for this corn. He told us that we had the right idea about improving corn for we have kept in sight, earliness and big yield.

The ears are a nice white color, not very big around but extra long, an ear on almost every stalk, and medium high from the ground, making it a very desirable corn to husk, stalks medium in height and stand up well, ears hang on stalk fine, but still husks easy, in fact it is one of the most desirable corns we know of. The demand for Blair White has been above the supply but if you send in your order early we will take care of you. Have a fine lot of seed to offer.

Price: \$6.00 per bushel in the ear or shelled; \$5.50 per bushel for 10 bushels or more. Bags free.

**BLAIR WHITE THE COMING CORN IN
OKLAHOMA**

Union City, Okla.
Aye Bros., Blair, Nebr.: The Blair White Corn I got from you two years ago is the Coming Corn in this country. I am selling considerable seed from it. One man got ten bushels. Yours truly, JOHN W. WOODS.

**DID WELL WITHIN FORTY MILES OF
LAKE SUPERIOR**

Hayward, Wis.
The Blair White Corn I got from you was planted about forty miles south of Lake Superior and did splendid. I made a picture of it on August 25th and will send you one when I get a copy. This was the best looking corn I saw in Sawyer County last year and I think it will pay to plant it here. It certainly did look good. Yours truly, A. J. DAVISON.

**BLAIR WHITE DOES WELL IN LINCOLN
COUNTY**

Maxwell, Nebr.
Am well pleased with the Blair White Corn I got from you. It stood up well and did better than any other corn in this community. Yours truly, O. L. REEVES.

**BLAIR WHITE DID BETTER THAN HOME
GROWN CORN**

Barnes, Kan.
Must say that the Blair White did fine here, better than home grown corn. Made thirty-five bushels per acre of good, sound corn. We had a very dry season here. Our corn was poor but had I planted all Blair White, would have made double the corn. Yours truly, CHAS. S. HOVORKA.

**BLAIR WHITE MADE GOOD CORN, OTHER
CORN MADE FODDER**

Battle Creek, Nebr.
The Blair White I got from you proved very satisfactory. My neighbor and myself replanted our corn on the same day, he using his own seed and I Blair White. He got good fodder and that was all. I got forty bushels to the acre of good corn so you see Blair White is good enough for me. Yours truly, JOSEPH SEVERA.

**BLAIR WHITE MADE AS HIGH AS EIGHTY
BUSHELS PER ACRE**

Carroll, Nebr.
Am willing to say that Blair White is the real corn. Have about forty acres of it and it is sure good. Have compared it with other corn around here and it has it skinned all to pieces so will say that there is nothing better than Blair White for me. This corn is making sixty-five to seventy bushels per acre on medium land and on the bottom where I have twenty acres it is making right around eighty bushels per acre. Yours truly, JOHN KETCHMARK.

CORN PLANTED MIDDLE OF JUNE MATURED

Deshler, Nebr.
I must say the corn I received from you did excellent. It came up good and even corn planted the middle of June is now, October 10th, out of danger of frost. We had no rain for three months, still we have a heavy crop of corn, so I can honestly recommend your Blair White to be the best corn I have ever raised. Yours truly, FRED HOBEL-MAN.

FEEDING BLAIR WHITE SEPTEMBER 9TH

Truro, Iowa.
The Blair White Corn I purchased from you did simply fine. I am feeding on it now, September 9th. Some of the ripest will shell. Ears are large and I can recommend it to all. Yours truly, E. A. KALE.

FULLY MATURED

Papillion, Nebr.
In the spring I purchased enough Blair White Corn from you to plant ten acres. It was planted May 3rd, and is now fully matured and thoroughly ripe. Very truly yours, TOM DOOLEY.

BLAIR WHITE THE COMING CORN

Herman, Nebr.
I think the Blair White Corn you sold us a few years ago will be the National Corn. In our section it is planted more than almost any other variety. I think it is the Coming Corn of the Corn Belt. Very truly yours, CHAS. S. CAMERON, Live Stock Auctioneer.

BLAIR WHITE ALL CORN AND NO COB

Burwell, Nebr.
I planted eighteen acres of Blair White Corn this year and it is the Coming Corn for it is all corn and no cob. We had a dry year here, no rain from harvest until late in the season but got a good crop. Will plant all Blair White next year. Yours truly, W. R. RASSETT.

BEST CORN HE EVER HUSKED

In the year 1917 we purchased some Blair White ninety-day corn from you and it was sure good corn. The man that husked it said it was the best corn he had ever picked so you know it was pretty good. Yours truly, S. A. LEWANDOWSKI, Loup City, Nebr.

TWO WEEKS AHEAD OF OTHER CORN

Giltner, Nebr.
I am well pleased with the Blair White Corn which I purchased from you last spring. It grew a heavy stock and stood up well and seemed to be about two weeks ahead of the other corn all summer. It took about one hundred days from planting until maturity. As to the yield I cannot say as we have not shucked any yet, but I am sure it will out yield the other corn. Yours truly, LYNN HANGER.

CAN'T SAY ENOUGH FOR BLAIR WHITE
Can't enough be said about your Blair White Corn. Some of it made thirty bushels per acre without a rain after it was planted. Of course we had a good wet subsoil and it matured faster than the other corn that we planted. Am well pleased. Yours truly, JOHN GRUBER, Byron, Nebr.

**STANDS DROUTH BETTER THAN OTHER
VARIETIES**

Central City, Nebr.
I think your Blair White Corn stands the drouth better than the yellow corn I have been raising. It has matured early as I have been cribbing it since October 4th, which is unusual in this latitude. It seems to be easier to husk than some varieties. I like it well enough to try it on a larger scale next year. Yours truly, SAMUEL COCHRAN.

MADE SEVENTY-FIVE BUSHELS PER ACRE

Seward, Nebr.
I bought some Blair White Corn of you last spring and planted seventy-five acres of it. I have a fifty-acre field that will make seventy-five bushels per acre of the finest corn I ever saw. I am picking out seed now. Yours respectfully, JOHN F. TYRRELL.

THINKS BLAIR WHITE IS GREAT

Wisner, Nebr.
I am well pleased with the Blair White Corn I got from you last spring. It did fine and I think would have done better had it not been for the wet spring. Am going to plant it again next year. I think it is just the stuff, Yours truly, PETER VAN JOHN.

EARS AS LARGE AS CORD WOOD

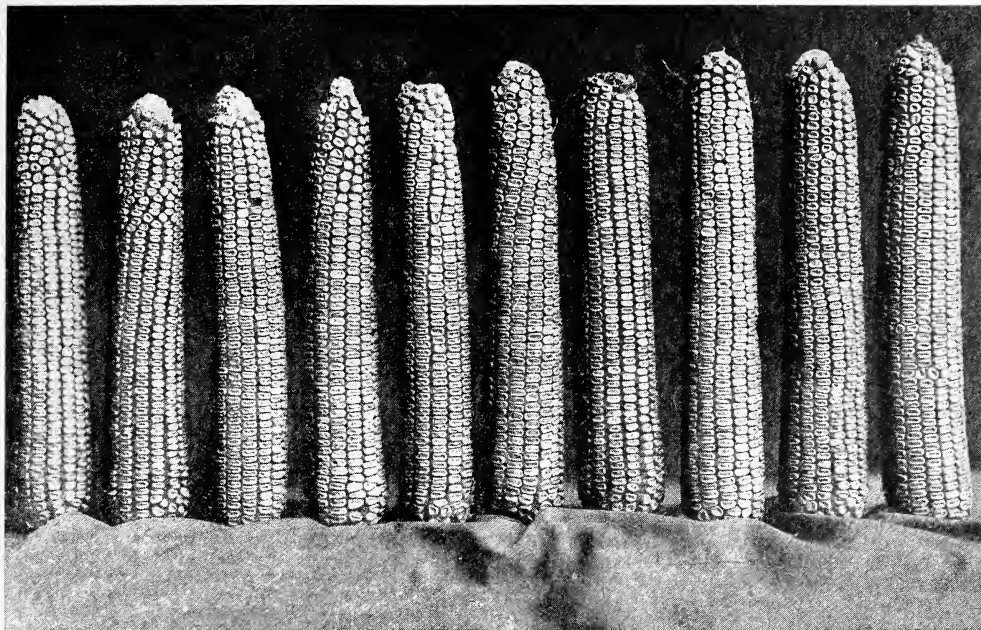

Boone, Iowa.
I got some Blair White Corn from you last spring and it was sure O. K. When I was husking it this fall, the ears were so large it was like throwing cord wood on the wagon. Yours truly, S. J. OEHLERT.

COLLEGE PROFESSOR LIKES BLAIR WHITE

Lincoln, Nebr.
The corn which you sent me arrived O. K. I showed it to Prof. Hopt and he immediately copped on to three or four ears to plant out on his home farm in western Nebraska to try it out there this coming year. He seemed to think it was a type of corn which is needed here in Nebraska, a little larger than our Minnesota 13 or Pride of the North and one which will give greater yields. In reply to several letters which have come in here inquiring about corn, we have told them about this corn which you call the Blair White and probably they have written you concerning it by this time. I intend, as I told you, to try it out here at the State Farm on a small scale. Very sincerely, P. H. STEWART, Instructor, University of Nebraska, College of Agriculture.

MATURED IN NINETY DAYS

Lincoln, Nebr.
That Blair White is some corn. One of our customers brought in an arm full of fine, large ears, fully matured, that were picked just ninety days from day he stopped planting. He says it will make sixty bushels to the acre. Very truly, GUNN SEED CO.

University Corn No. 3—Not a Show Corn, But a Big Yielding Variety—Early

University Corn No. 3—^{90-Day} Corn

THIS variety is along the line of our Blair White except it is yellow in color and ears are slightly tapering. Ears long (10 to 14 inches). Grain not very deep. Like our Blair White, it is a 90-day variety, stands up well, a good feeding corn and a splendid yielder (some growers reporting around 75 bushels per acre). As you probably know, lots of early kinds of corn don't yield heavy, but University No. 3 and Blair White are the exceptions. After trying out University No. 3 with some other varieties of yellow corn one of our very best farmers here is going to plant most of his acreage to University No. 3.

If you want the best early Yellow Corn, get University No. 3.

The University of Nebraska started to develop this strain of corn about the same time we did our Blair White. The demand for a number of years has been for an early corn but still a big yielder. We have had this variety for a few years and it yields very heavy and matures in about 90 days.

Some farmers don't like White corn so we have added this variety to our list. The stalks grow a little taller than the Blair White but stand up well and ears are just about the right height from the ground to make it nice to husk.

If you want a big yielding, early yellow corn be sure and get this variety. It is not a show corn.

Price: \$6.00 per bushel in ear or shelled; \$5.50 per bushel for 10 bushels or more. Bags free.

CORN LOOKS GOOD

Fremont, Nebr.

Aye Bros., Blair, Nebr.: Please find draft here-with for seed corn. Hope it will be as good as it looks. Yours truly, DAN V. STEPHENS.

LIKED REID'S YELLOW DENT

Albion, Nebr.

Aye Bros., Blair, Nebr.: I liked your Reid's Yellow Dent Corn very much and would like this year's prices on your corn. Yours truly, W. C. WATT.

YEILDS EIGHTY-SEVEN BUSHELS PER ACRE

Blair, Nebr., Oct. 16, 1920.

Aye Bros., Blair, Nebr.: Your new type of Reid's that I procured from you last spring is about ten days earlier than the old type and is yielding eighty-seven bushels per acre on a side hill. Am very well pleased with it and will plant it again next season. Yours very truly, CHAS. B. LAZURE.

CORN DOES WELL IN ILLINOIS

Belvidere, Ill.

Aye Bros., Blair, Nebr.: I suppose you wonder why I haven't sent for more seed corn as you must be aware that we are in need of a lot of good seed corn here, but a seed corn administrator was appointed for this district and he ordered me not to ship in or sell Southern or Western seed without his permit. He has found out since that farmers here have had seed corn from Blair and that it will ripen here as well as any corn. Please let me hear from you at once about seed corn. Respectfully, J. ROSECRANS.

MADE SEVENTY-FOUR BUSHELS PER ACRE

Wisner, Nebr.

Aye Bros., Blair, Nebr.: Your seed corn did very well here. The best corn we had. Made seventy-four bushels to the acre. Yours truly, ARNOLD VAN JOHN.

WOULD NOT ASK FOR ANYTHING BETTER

Beatrice, Nebr.

Aye Bros., Blair, Nebr.: Please send me your price on pen of five hens and one rooster of Barred Rocks. If your Barred Rocks are as good as your Reid's Yellow Dent Corn, then I would not ask for anything better. Very truly yours, A. L. MOSCHEL.

SILVER MINE TESTED NINETY-SEVEN PER CENT

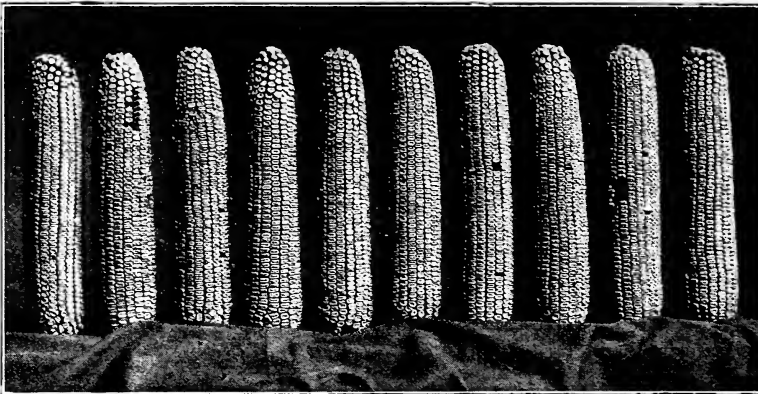

Lyons, Nebr.

Aye Bros., Blair, Nebr.: I received the Silver Mine Seed Corn I bought of you in good shape. Tested it twice and it tested ninety-seven per cent. Yours truly, PERRY ANDERSON.

BLAIR WHITE PLANTED JUNE 25th MATURES

McCracken, Kan.

Aye Bros., Blair, Nebr.: I am well pleased with the Blair White Corn. I had the old Blue and White on one side of the field, all planted the same time, same cultivation and same soil. The Blair White is eared better and more uniform in size of ears and is some earlier as well. I planted some for stock very late, the 25th of June, and had corn for house use August 25th, which I think is remarkably quick maturing. Yours truly, H. S. HAAG.

Prize-Winning Corn at National Corn Show Held at Columbus, Ohio. Grown by Aye Bros., Blair, Neb., Seed Corn Center of the World

Seed Corn

Reid's Yellow Dent

Our Reid's Yellow Dent as grown in Washington County on our seed farms is without a doubt the best corn grown anywhere in the world. We will admit that in the past we have been partial to our kind of Reid's for we have seen the so-called Reid's Yellow Dent at other places that certainly did not look good to us. We used to pick the very deepest kernels for seed, but we have found, by actual experience, that it is not the best policy to follow. We have found that the medium-grained ears are the best for seed. We are getting better and bigger yields every year by our method of selection. Our strain of Reid's is winning more prizes than any other strain of corn that we have any knowledge of.

We could fill this entire catalog with testimonials and lists of prizes that our corn has won for us and for those who have used our seed.

Price: \$4.50 per bushel in the ear or shelled; \$4.25 per bushel for ten bushels or more. Bags free.

Every spring we have calls for corn for breeding plots for an acre or so, and we have selected the very finest ears we have and will ship you ten ears (enough for an acre) for \$3.00. Each ear will be wrapped separately but we will not send less than ten ears.

Sample ears 50 cents, postpaid.

Sample shelled corn free.

Reasons Why You Should Buy Your Seed Corn From Us

We send out only selected ears.

Our corn is handled five or six times before it goes to our customers.

We grow the best strains of corn in the world.

We live in the center of the corn belt.

Blair is the seed corn center of the world.

Our corn matures early.

It is a heavy yielder.

It reproduces itself.

It wins prizes for others.

Our corn does as well for others as it does for ourselves.

We satisfy our customers.

We have the best of shipping facilities.

We ship the same day we get the order.

You can return seed if it fails to please you.

The State Experiment Station recommends us as reliable and as having the right type of corn.

We have the best in the world.

We have sent seed to farmers, stock men, seed men, elevator men, professors, dairymen, doctors, boys and girls, professors of universities, to foreign countries, people just starting out as farmers, dealers, live-stock auctioneers, breeders, show corn growers, editors, manufacturers, cheese makers, and railroad presidents, and they like it.

The object of this little book is to tell you what we have to sell, and you will find in the following pages as brief a description as possible of the things we are offering.

If there is anything you don't understand about our goods after reading this catalog just write us and we will answer you at once.

We want you to become one of our regular customers, for we believe that it will be mutually profitable. Let us hear from you whether you want to buy something from us or have something to sell.

PROFESSOR MONTGOMERY LIKES OUR METHOD OF DOING BUSINESS

Lincoln, Nebr.

Aye Bros., Blair, Nebr.: I have just received a copy of your seed corn catalog, and must congratulate you on its appearance. You are starting out right, and if you keep up the quality as you have in the past, I am sure that your business will be a success. Very truly yours, E. G. MONTGOMERY, Nebraska Experiment Station.

BEST CORN EVER PLANTED

Rogers, Nebr.

Aye Bros., Blair, Nebr.: I got a very good start from your corn last year and expect to plant Reid's Yellow Dent altogether this year. Each kernel gives a stalk and each stalk a good ear. I can earnestly say that it is the best corn I have ever planted. J. E. HIGGINS.

BLAIR WHITE MATURES IN SPITE OF DRY WEATHER

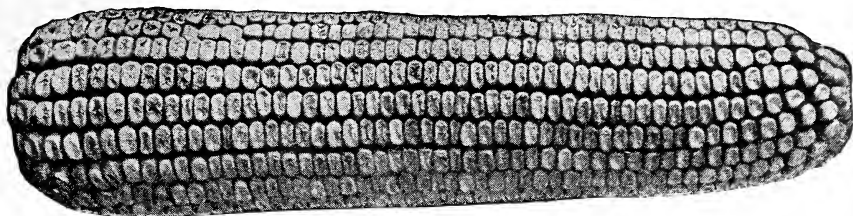

Bethany, Nebr.

Aye Bros., Blair, Nebr.: I am very well pleased with the Blair White Corn. We had a very dry July and August. No rain after July 4th, but got a good stand. Some of the tassels were burnt and did not fertilize but there are a good many good ears. Am going to plant it again. It is an early corn and that is what we want in this country. Yours truly, E. M. FAIRLEY.

RAISES A DANDY CROP OF BLAIR WHITE

Central City, Nebr., Aug. 25, 1920.

Aye Bros., Blair, Nebr.: I have a dandy field of Blair White Corn from the seed I purchased of you last spring. Yours truly, ED. E. SMITH.

Reid's Yellow Dent

Silver Mine

Silver Mine corn is the most popular white variety grown in the corn belt. It is early, yields heavy, has deep grains, stands up well and will probably grow more corn to the acre on this land than any other variety. It yields enormously on heavy soil. The ears are not very high from the ground and makes it a most desirable corn to husk. The quality is always good and has a great feeding value. The cob is white and not large. If you want to plant a medium early white corn get some of our strain of Silver Mine. We know it will please you. Some of our Blair farmers won't grow any other kind.

Price: Same as Reid's Yellow Dent.

Nebraska White Prize

The cut below is a picture of a prize ear of the White variety. This corn has been winning most of the prizes in the white classes. This corn is somewhat larger than the Silver Mine, but is ten days later. It surely is the corn for rich heavy soils.

Price: \$4.50 per bushel in the ear or shelled; \$4.25 per bushel for ten bushels or more. Bags free.

BEST QUALITY EVER RAISED

Blair, Nebr.

Aye Bros., Blair, Nebr.: We want to thank you for the splendid seed corn we got from you last spring. You will remember that we bought two and one-half bushels of your selected seed and we honestly believe that it was, without a doubt, the best investment we ever made. The seed grew perfectly and the yield was 80 bushels or better per acre and the best quality of corn that ever went into our cribs, and as we feed about 500 head of cattle every season, the quality of the feed has everything to do in putting on a finish to make market toppers.

We picked out a few ears and exhibited them at the National Corn Show at Omaha this year and we took Third and Fifth prizes on single ear and some judges thought that we ought to have had sweepstakes on our three prize ears. We also took Third prize on 20 ears.

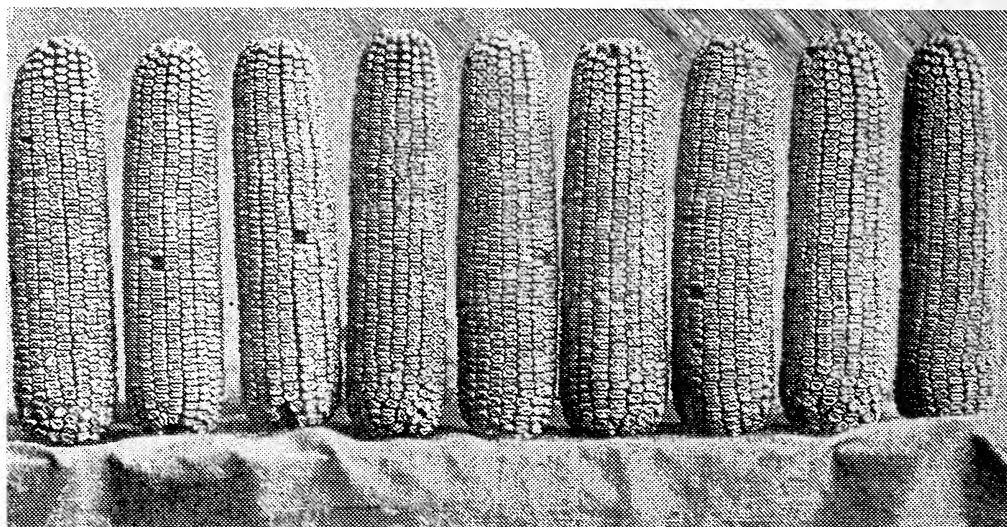

When you told us last spring before we bought our seed that almost every stalk would have an ear we doubted it some but it was the best eared corn we ever grew. Yours truly, GRIMM BROS., per Edw. D. Grimm.

Grown in South Dakota by Mr. Collins, from seed procured from us.

Nebraska White Prize

We Furnished the Seed That Produced the Above Corn

Blair Yellow

The Blair Yellow Corn is about ten days earlier than Reid's. The grains are rough and deep, medium in size, the stalks strong and considered by some of our farmers to be the best all around corn grown and one of the surest croppers. It stands up a high per cent of corn to the cob. It shells out well. We have watched this corn grown by one of our best farmers and he always grows a good crop, even in a very dry year, having raised 65 bushels when other corn was making only 15 bushels to the acre. This is fine feeding corn. The longer we know this corn the better we like it. If you want a yellow corn that is earlier than Reid's you cannot go wrong in getting some of this seed.

Price: \$4.50 per bushel in the ear or shelled. \$4.25 per bushel for ten bushels or more. Bags free.

Ninety-Day Red

If you live in western Nebraska, western Kansas, in South Dakota, or if you want an early corn, you cannot find a corn that will do you more good than our early Ninety-Day Red. This is one of the finest varieties to plant for hogging down. Every hog raiser should grow a patch of this early corn, and turn his hogs into the patch about August. The best gains we ever make on a bunch of hogs is when we turn them into a patch of growing corn and let them harvest it. After the hogs are through with it sow winter wheat on the land and see what a big crop you will have. Our Ninety-Day Red has a red color with a white cob. It is a drought resister. Get a few bushels for a part of your corn crop.

Price: \$4.50 per bushel, shelled; \$4.25 per bushel for 10 bushels or more. Bags free.

EARLIER THAN OTHER VARIETIES

Missouri Valley, Iowa.

Aye Bros., Blair, Nebr.: We feel we cannot say too much for your Blair White Corn. We have over 250 acres and we find that your corn stands up better and is much earlier than the other varieties of big corn. It also yields the yellow corn.

We finished planting forty acres on the twelfth of June, the ground was in bad condition, being very wet, and it was ripe three weeks before frost. I believe this corn will make better than fifty bushels per acre.

I can highly recommend Blair White to any man who wants to raise more corn to the acre. Yours truly, F. H. SWAN.

RIPE ENOUGH TO FEED IN AUGUST

Ft. Calhoun, Nebr.

Aye Bros., Blair, Nebr.: We say Blair White Corn is great. We planted this corn the seventh of May and by the last of August was feeding it. It certainly is a very early variety and a big yielder. The ears were great, long and a nice grain. We have selected seed from it and are going to plant it again next spring. We recommend your Blair White Corn to all. Yours very truly, AUGUST SCHROEDER & SON.

BEST CORN HE HAD EVER SEEN

Benson, Nebr.

Aye Bros., Blair, Nebr.: I have looked over the seed corn you sent us and can say that it is absolutely the best corn I have ever seen. Please accept our thanks for the treatment we received at your hands. Very truly yours, E. M. LITTLE.

FIRST CLASS SEED

Bellwood, Nebr.

Aye Bros., Blair, Nebr.: My brother ordered some of your Reid's Yellow Dent corn last year and found it to be first class seed. After he planted it we had a hard packing rain which made the ground very hard. Many farmers had to replant but your seed came up in fine shape. Yours truly, FRANK D. ADAMY.

Just in From the Field

A One-Morning Shipment of Seed Corn

Flint Corn

Flint Corn is one of the very earliest varieties of corn grown, and for real early feed or for land that cannot be planted till late in the season get some Flint Corn.

Price: \$4.50 per bushel; \$4.25 per bushel for 10 bushels or more. Bags free.

Conclusions: When we started in the Seed Corn business we sent out only ear Seed Corn, but in the last few years our old customers who have been doing business with us, and knowing the quality of corn we have been putting out, have been demanding shelled corn.

To all new customers we want to say that the price of Ear and Shelled Seed Corn is the same. Some parties make a reduced price on shelled corn, but it costs us as much to prepare Shelled Seed Corn as Ear Corn, therefore the price is the same.

A ONE HUNDRED PER CENT STAND

Lair, Texas.

Aye Bros., Blair, Texas.: The seed corn which I purchased from you proved fertile as I got a 100% stand. Yours respectfully, T. R. BLAIR.

OATS TEST MADE 91 BUSHELS PER ACRE— OTHER OATS MADE 35

Glendo, Wyo.

Aye Bros., Blair, Nebr.: The Kherson oats I got from you last spring did fine. I had in 36 acres that made 91.1 bushels per acre, machine measure, and weighed 40 pounds per bushel. Other oats made around 35 bushels. Your seeds are cheap at most any price. Yours truly, W. A. SAUL.

Sidney, Iowa.

Aye Bros., Blair, Nebr.: I sent two years ago this spring to you and got enough Kherson oats to sow ten acres. I received 600 bushels the first year and they were fine. Yours truly, K. H. OTTE.

Lincoln, Nebr.

Aye Bros., Blair, Nebr.: Your letter of the 31st ult. at hand and sample of Kherson oats. This looks like real Kherson oats all right. I think there will be quite a demand for the seed this spring and will be glad to refer inquiries to you. Yours truly, E. G. MONTGOMERY.

Seed Oats

Kherson

You should sow oats that are adapted to your locality and your land. If you have very rich land do not sow the long straw, late maturing kind in the corn belt. What you need is some early maturing variety like the Kherson, and if you rotate your crop as you should, your land will soon be rich enough to grow from 85 to 125 bushels of corn to the acre, and then it is too rich for the late oats.

We would not advise sowing Kherson oats on land that will not produce 25 bushels of corn per acre. Your land should be seeded down to clover when it gets as thin as that. We have the purest Kherson oats in the United States today.

This variety of oats was introduced into this country from the Kherson district in Russia by the Nebraska Experiment Station, hence the name. This is without doubt the best oats to sow in the corn belt, as it is early, does not rust or lodge, is a heavy yielder, weighs very heavy and as a nurse crop beats anything we have ever tried. The kernels are small, of a light golden color and very numerous on the stem and all stock like this oat better than any other variety, as it has a very thin hull. If you will compare these oats with any other variety by removing the hull, you will find that the Kherson has a larger amount of meat than most of the larger varieties.

We have shipped these oats to ten different states and have not had one word of complaint. Everyone has nothing but words of praise for them. Remember these oats come to you all re-cleaned and ready to put in the field.

See enclosed price list for price.

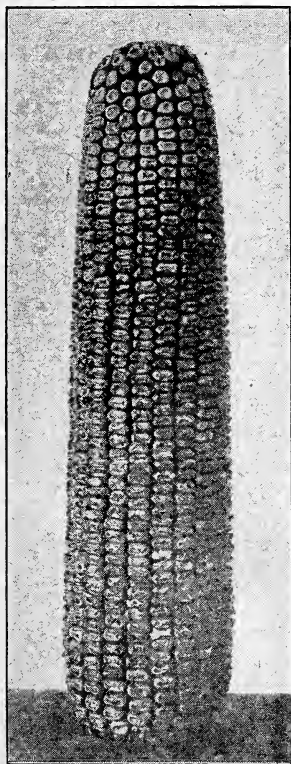

White Kherson

Here we have a variety of oats that has all the good qualities of the Kherson and has a whiter color and lots of growers claim that it will outyield the Kherson oats. It will have to go some if it does. We did not grow this variety but we had it raised and the grower likes them very much. It might pay you to get a few bushels to try. We are always on the lookout for better varieties, and we know that this is a good oat and that you will like it.

See enclosed price list for price.

Glenwood, Iowa.

Aye Bros., Blair, Nebr.: In accordance with our conversation by phone this morning, please ship to O. L. Barrett, McClelland, Iowa, 15 bushels of Kherson oats. Also send to me at Ames samples of your Kherson and Swedish Select oats. I am placing this order with you on the recommendation of B. W. Crossley of Council Bluffs, formerly with the Iowa State College. Very truly yours, M. L. MOSHER, Iowa Experiment Station.

We furnished seed that produced above ear

Other Grains

Barley

Barley is a splendid nurse crop and on medium rich land is a money maker. We would not advise sowing barley on poor soil but it is surely a profitable crop on rich soil.

The grain when ground makes splendid hog and cow feed. It stands up well and live stock like the straw. Sow from 1½ to 2 bushels to the acre on well prepared soil.

See enclosed price list for price.

Spring Rye

Spring Rye is becoming more popular every year as it should. It stands up well, can be sown real early in the spring or even when sown later it yields a big crop, 40 bushels per acre being common, according to reports, and at the present price of Rye you can see that it is a very profitable crop to grow. Some farmers even report a very much larger yield than 40 bushels, but we would advise sowing some Spring Rye.

See enclosed price list for price.

Swedish Spring Wheat

Most farmers of our county gave up sowing spring wheat until this variety was introduced from Sweden, but since its introduction to this country many of our farmers prefer it to the winter varieties. Last year this wheat proved to be a very profitable crop. It stands up better than any other wheat we have ever seen. This is the best spring wheat we have any knowledge of and you can't afford to sow any other if you intend to sow spring wheat. Our wheat is re-cleaned and ready for the seeder.

See enclosed price list for price.

Improved Turkey Red Wheat

Write for our quotations and description of this wheat.

Write for prices.

Winter Rye for Pasture

Winter Rye when sown in the spring makes a fine pasture during the summer. When sown in the spring it does not head. It makes a better pasture than oats, wheat, etc., for it stands more abuse.

See enclosed price list for price.

Buckwheat

We handle two varieties, the Japanese and Silver Hulled Buckwheat and can send you nice clean seed at price list prices.

Flax Seed

Sow ½ to ¾ bushels per acre. Can furnish good clean seed at any time.

Price: See Price List.

Speltz

Sow about 90 pounds per acre. Can furnish good clean seed at any time.

Price: See Price List.

Potatoes

Red River Early Ohio

Potatoes run out quicker than any other seed and for that reason a change should be made occasionally and seed should be gotten from the North, especially the Red River country. We don't handle anything but Red River Early Ohio, except when people want other seed. We have had potato growers tell us that our Northern-grown seed does better than their home-grown seed. Our stock is selected for seed.

See Price List.

Gayville, S. D.

Aye Bros., Blair, Nebr.: We have received 240 bushels of oats from the 15 bushels of seed we purchased from you last spring. We expect to sow 40 acres next spring. What are these oats worth now? Our neighbor wants all we have to spare. What will you furnish them for next spring? Yours truly, E. E. WARFIELD.

Nehawka, Nebr.

Aye Bros., Blair, Nebr.: The Kherson oats I got of you last year made 72 bushels per acre on alfalfa sod. Yours truly, RAYMOND C. POLLARD.

Clover

Common Red Clover

Everyone should sow common red clover in his small grain every spring to restore the fertility of the soil. It makes fine pasture, excellent hay, and yields from one to four bushels of seed per acre, and when the land is again planted to corn we have known an increase of 100 per cent the first year. Sow from 8 to 15 pounds per acre, but when sown with timothy from 5 to 8 pounds is enough. Sixty pounds to the bushel. See Price List.

Mammoth Red Clover

On very poor soil we would sow the Mammoth Clover. It grows very rank and is a better soil restorer than the common red. It makes great pasture, but sometimes the hay is too coarse if sown on too rich soil. If you want a crop of seed you should pasture Mammoth Clover until about June 1st and then take off your stock. Let it stand and the heads will form during the dry season. See Price List.

Alsike

If you have low, wet land, sow Alsike Clover. It will thrive on land that is almost a swamp and on places where Red Clover will not catch. It will in time dry out the land on which it is sown and sweeten it so that other clover can be grown. It is fine to sow on thin, sandy soil and on stony hillsides where Red Clover will not catch. The seed is very small and it only requires 4 to 7 pounds to sow an acre. Alsike certainly makes a fine pasture for all kinds of stock. See Price List.

White Clover

White Clover is the hardest of all clovers and is a good kind to sow on lawns and on pastures. It does not need a lengthy description because it is so familiar to everyone. See Price List.

Alsike and Timothy

During the last year or two we have been selling an awful lot of the above mixture, and if you have low or damp land we don't know of a better combination than Alsike and Timothy, and as a rule we can offer you the two combined at a cheap price, for the reason that they are threshed together, and the seeds being the same size, they cannot be separated, so we will sell the two together. The proportions of seed are about one-fourth to one-third Alsike and the balance Timothy. See Price List for prices.

Sweet Clover

A few years ago Sweet Clover was considered by most people to be a weed, but now it is grown in every state in the Union for hay, pasture, seed and for renewing the soil. Can be sown almost any time, but seems to do best when sown in the early spring with or without a nurse crop. It is a biennial, like Red Clover; that is, it dies at the end of the second year after sowing. There are two varieties that have any value: The White Biennial and the Yellow Biennial. At present the White Biennial is by far the most popular, although the Yellow Biennial has a lot of friends. The Annual Yellow may be of some value, but we would not advise anyone to sow it. For prices see Price List.

Alfalfa Seed

Alfalfa is the most valuable of all the grasses and there is not a state in the United States that cannot grow Alfalfa. It is a perennial and is very hardy. In the last 20 years we have only had one winter severe enough to kill it.

Can be sown in spring with or without a nurse crop. Lots of agricultural writers advise to not sow Alfalfa till all danger of frost is over in the spring, but some of our most successful Alfalfa growers sow as early as possible in the spring with their small grain, and sometimes after cutting the grain, cut a nice big crop of hay the same season, and the following years cut from three to four crops. By the above method you don't lose the use of your land a single season.

Alfalfa leaves are worth, ton for ton, as much as bran, and three to seven tons can be grown from an acre.

There is nothing that equals a nice patch of Alfalfa for a hog pasture, but have a patch large enough so the hogs cannot eat it down, and cut the Alfalfa for hay.

Sow 20 pounds per acre. For prices, see Price List.

Timothy

We always sow Timothy with our common red clover. When the clover dies, which it does the second year, the Timothy is at its best. We mix our seed with the clover when we sow it. Timothy makes fine hay and is splendid for pasture. We have some very choice seed to offer you this year. See Price List.

Grasses

Kentucky Blue Grass

Grows almost anywhere and is sown for lawns and pastures. No better seed than Kentucky Blue Grass for lawns. We have some fine seed that is clean and new. See Price List.

English Blue Grass (MEADOW FESCUE)

An excellent pasture grass and succeeds almost anywhere on low ground and high soils. It is very early in the spring and stays green late in the fall. See Price List.

Red Top

Here is a grass that is at home and at its best in low, swamp places and thrives there. It is not a hard grass like timothy, and when put up as hay makes excellent hay for cattle. A mixture of Alsike, Blue Grass and Red Top makes excellent pasture on bottom lands. See Price List.

Brome Grass (Bromus Inermis)

Is a native of Europe and Asia and is a hardy perennial grass. It is one of the most valuable grasses that has been introduced into this country. It is very early in the spring and stays green very late in the fall. There is no grass that will stand as much abuse and drouth as Bromus. Can be cut two or three times a year and all kinds of stock like the grass and hay. Sow 20 to 25 pounds to the acre either in the early spring or fall. See Price List.

Orchard Grass

A valuable grass for pasture and hay. It is early and splendid for permanent pastures, as it stays green late in the fall. Does well in shady places like groves, orchards, etc.; 14 pounds to the bushel. See Price List.

Lima, Ohio.

Aye Bros., Blair, Nebr.: Fourteen bags Alfalfa arrived today and found same satisfactory, quality as well as weights. Yours very truly, HYMAN & LEVY.

Big Sandy, Tenn.

Aye Bros., Blair, Nebr.: Please quote me your best prices on Alfalfa Seed. I bought some from you about two years ago and liked it fine. Respectfully, T. C. CRANEY.

Yankton, S. D.

Aye Bros., Blair, Nebr.: Have you any more alfalfa seed? The last was fine. Yours respectfully, P. M. MAGNER.

Sudan Grass

Sudan Grass is an annual and belongs to the sorghum family. It originally came from Sudan, Africa. It is claimed it will stand drought well. Sudan Grass has beyond a reasonable doubt solved the hay question, for it grows readily in all sections of the country, and as it matures in less than 90 days, it can be sown whenever there is danger of a shortage in the hay crop. Sow about 15 to 20 lbs. broadcast if wanted for hay and harvest like millet. If wanted for seed sow to 3 to 6 lbs. per acre in drills 3 to 6 inches apart and cultivate like corn. For prices see Price List.

Cane Seed

As a catch crop there is nothing equals Cane for hay. It can be sown as late as July and no matter how dry a season you may have you can depend upon Cane to make plenty of feed. Yields enormously. It make the finest kind of hay to winter horses on. See Price List.

Dwarf Essex Rape

Rape is an annual and belongs to the cabbage family. When sown early in the spring it furnishes a great deal of green feed all summer for the hogs and is excellent for that purpose. Can be sown in the cornfield at the last cultivation and will make a lot of feed for the hogs, sheep or cattle when they are turned into the stalks when the husking is over. See Price List.

Golden Millet

We have a large quantity of home-grown Millet which is very choice. Our Golden Millet will make from four to five tons of hay per acre and if left for seed will yield as high as 60 bushels. Millet seed makes as fine a chick feed as you can find, and if you grow chickens it will pay you to raise Golden Millet for seed. It can be sown as late as July on places where other seed has been lost or washed out. Besides it makes an excellent fodder. See Price List.

Sunflower

A small patch of Sunflowers will make an immense amount of chicken feed. They like it better than most grains and it is good for them. Be sure to plant a small patch of Sunflowers. See Price List.

Exeter, Nebr.

Aye Bros., Blair, Nebr.: The Nebraska Experiment Station having recommended you as reliable seed corn growers, kindly let me know your price per bushel of ear corn. Yours truly, AXEL RAS-MUSSEN.

WELL PLEASED WITH SEED CORN

Schleswig, Iowa.

Aye Bros., Blair, Nebr.: I have received seed corn from you a couple of times and was well pleased with it in test and also in quality. Yours truly, NIC NEAVE.

RECOMMENDED BY NEBRASKA EXPERIMENT STATION

Belgrade, Nebr.

Aye Bros., Blair, Nebr.: I received your name from the Experiment Station at Lincoln saying you had seed corn for sale. I want five bushels of good white seed corn in the ear. Yours truly, RALPH E. BARBER.

WON FIRST PRIZE

Decatur, Nebr.

Aye Bros., Blair, Nebr.: The seed corn I bought from you last spring was the best seed corn I ever bought in my life. I raised over seventy-five bushels per acre and it is the heaviest corn I have ever seen. I exhibited ten ears at the Corn Show at Decatur and won first prize. Yours truly, EMIL DIXON.

HASN'T LOST A CHICKEN SINCE USING GERMILK

Laurens, S. C.

Aye Bros., Blair, Nebr.: I have 200 very fine chickens and Germilk keeps them in good health. It will sure cure the Roup. I haven't lost one chicken since I have been using it. Yours truly, LLOYD TESTER.

Garden Seeds

WE LIKE the Garden and Flower Seed business. Probably the reason for this is that our seeds have given such good satisfaction, but why shouldn't they? We handle only the best that can be grown or that money can buy. Some of the largest and best growers of garden and flower seeds furnish us with fresh seed every year. It is true we don't ask as much for our seeds as some seedsmen, but we don't need to. We live in a town of 3,000 inhabitants and our taxes are not as high as in some of the larger towns; we pay no rent and are not trying to get rich in a few years, but we want our business to gradually increase as the cost of living increases, and we feel sure it will if we can only get new customers to try our seeds one year. We know you will be pleased with them and become a regular customer.

We pay postage on all garden and flower seeds except as otherwise specified in catalog.

Send to us for your garden and flower seeds and we believe that you will never regret it. It is impossible to get better seed from any seed house, no matter what you pay. Of course, we don't want you to think that no one else sells good seeds, for we know of lots of good reliable seed houses handling seeds that come from the same growers that we get our seeds from.

Our business is now large enough to justify us in reducing prices on most all of our garden seeds and nursery stock. We want a large volume of business, for the more business we have the cheaper we can sell. We want to sell enough so we can do our own importing and buy in car and ship loads. You will help yourself by helping us.

All prices are subject to change without notice, but we believe that the prices following will remain during the whole season.

It is reported that packets of garden seed will be increased in price to 10 cents per packet by a number of seed dealers, but we will keep our price at 5 cents per packet on most varieties, but all of our packets may not have pretty illustrations on them, but the seed will be just as good.

We are not going to list every variety of garden seed but only enough of the best so that you can have a selection. Neither do we think it necessary to describe and illustrate standard vegetables. We also take it for granted that most people who send for Seed Catalog know how to sow and take care of a garden and we are not going to give directions on how to plant garden seeds and cultivating and harvesting your crop.

Following is a list of garden seeds we have and the prices. It is easy to order from.

Missouri Valley, Iowa.

Aye Bros., Blair, Nebr.: The seed that I bought from you last year I sowed seed from this year. I planted one-half acre and sold \$137.70 worth of melons from that half-acre patch. Am going to put in four acres next year and am going to buy my seeds from Aye Bros. Yours truly, JOHN WILDER.

Red Cloud, Nebr.

Aye Bros., Blair, Nebr.: Will you please send me one of your catalogues, as I wish to order some of your garden seed and Sudan grass seed. The best garden I ever had was raised with your garden seed. Yours truly, ROSIE A. WILMOT.

Pender, Nebr.

Aye Bros., Blair, Nebr.: I sent to you last year for my garden seed and was very much pleased. The seed were very good. Yours truly, MRS. K. MORRISON.

Bassett, Nebr.

Aye Bros., Blair, Nebr.: I received the tomato plants several days ago that you sent to replace my order and thank you for same. They were a fine lot of plants and are nearly all growing. I will not forget you in placing my orders next season. Respectfully, J. E. Francis.

Winside, Nebr.

Aye Bros., Blair, Nebr.: I received my garden seeds and am pleased to say they were simply fine. Are coming up grand. Yours truly, MRS. W. D. HUGHES.

Broadwater, Nebr.

Aye Bros., Blair, Nebr.: I received my seed all right and many thanks for same. Am well pleased with them and you may hear from me again this summer. Yours truly, MRS. MIKE ELSASS.

HUSKED 640 BUSHELS FROM SEVEN ACRES

Blair, Nebr.

Aye Bros., Blair, Nebr.: The seed corn I bought from you last spring suited me to a "T." From a field of seven acres I husked a little over 640 bushels and as the field was close to the feed lots, the hogs, calves and chickens were in it more or less all summer and I believe I would have cribbed 700 bushels from the seven acres if stock had been kept out. Yours truly, CARL ROHWER.

NEBRASKA EXPERIMENT STATION APPRECIATES QUALITY OF CORN

Lincoln, Nebr.

Aye Bros., Blair, Nebr.: During the Corn Shows we bought from you five bushels of Dent Corn. I very much appreciate the quality of the corn you turned over to us. Yours very truly, ERWIN HOPT.

OUR CORN RECOMMENDED BY COMMERCIAL CLUB OF OMAHA

Goliad, Texas.

Aye Bros., Blair, Nebr.: Your corn has been recommended to me by the Commercial Club of Omaha. Please give me price per bushel and cost of freight to this point. Yours truly, MRS. J. C. BURNS.

THINKS CORN IS FINE

Bancroft, Nebr.

Aye Bros., Blair, Nebr.: The eggs and corn were received a few days ago and I must say that the corn is fine. It is starting very nicely. I shall remember you in the future when I need anything in that line. Respectfully yours, NILS JOHNSON.

St. Edward, Nebr.

Aye Bros., Blair, Nebr.: Received the seed corn this morning in fine shape and am well pleased with it. Thank you for the prompt shipment. Respectfully, CLYDE ELLIS.

Trees, Shrubs, Vines, Bushes and Plants

Make the Home Grounds Beautiful and Profitable

A FARM or a town home is not complete without some nice trees, shrubs, plants, etc., and the cost is small compared to the profit and pleasure there is in a nice orchard, vineyard, strawberry beds, and ornamental trees and shrubs planted in the right place.

Don't wait until next year or some future time to set out trees or plants, but do it this season and in a short time you can pick fruit from your own trees and vines.

All of our stock is properly packed so that it will get to you in the best of condition for planting. Send your order in early and we will ship at proper time.

This catalog is our only agent and by looking over our prices you will find they are cheaper than sold by most reliable agents and our quality is the very best. Purchaser pays transportation charges.

GUARANTEE: We guarantee our trees, plants and nursery stock to arrive at destination in good shape and that our stock has been inspected by the State Entomologist and is free from San Jose

Scale and other dangerous insects or plant diseases. A certificate goes with each shipment.

To those of our customers who are not familiar with varieties of fruit we would urge upon them to order varieties marked with a star. We know they are good for the average planter and will give good results. Of course we have varieties for those who wish still something different and have listed them.

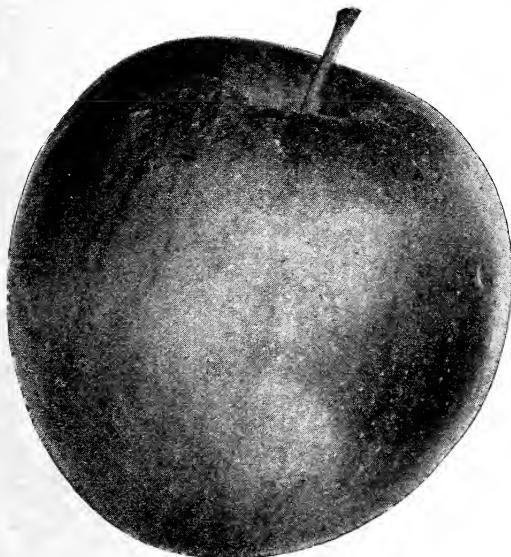

We wish again to call your attention to the fact that all of our stock is the very best and not odds and ends that are usually thrown away by some nurserymen and then sold at some ridiculously low price. It costs money to produce high-class stock and our price is in line with stock offered.

REPLACEMENT AT HALF PRICE: Stock that dies from transplanting will be replaced at one-half catalog price.

There is a shortage of nursery stock this season and we are not sure that we can fill orders after April 1, 1921.

We will have no ornamental shrubs, vines or bushes to offer this season for there is a big shortage and too high in price.

Fruit Tree Department

Apples

We have the following varieties to select from:

Summer Apples: Chenango, (*Duchess), Early Harvest, Golden Sweet, (*Liveland Raspberry), Red Astrachan, Red June, (*Yellow Transparent).

Everbearing Raspberries

Everbearing Raspberry (St. Regis)

Bears the first season. Begins to bear about
middle of June and continues until late in October.
One of the greatest Raspberries ever introduced.

	Per 10	Per 100
Plants	\$2.00	\$15.00

Blackberries

Can furnish the following varieties:
✓ Ancient Briton, (*Blowers), (*Snyder).

	Per 10	Per 100
Plants	\$2.00	\$10.00

Strawberries

The strawberry is the queen of all fruits. It is
the first to ripen and the quickest to come into
bearing. Can be grown on almost all kinds of soil
and in most climates. The Everbearing strawberry
makes it possible so you can have strawberries all
summer now. Just as easy to grow as ordinary
strawberries and will fruit the first season.

The Senator Dunlap is the only variety we handle
that bears in the early part of the season and the
Progressive is the only Everbearing strawberry
we sell for they are the two best kinds.

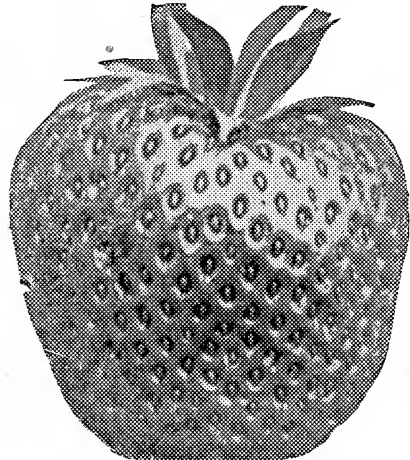

The Senator Dunlap is the very best of the stan-
dard varieties.

	Per 25	Per 100	Per 1000
Plants	\$0.75	\$ 2.50	\$20.00

Everbearing Strawberries

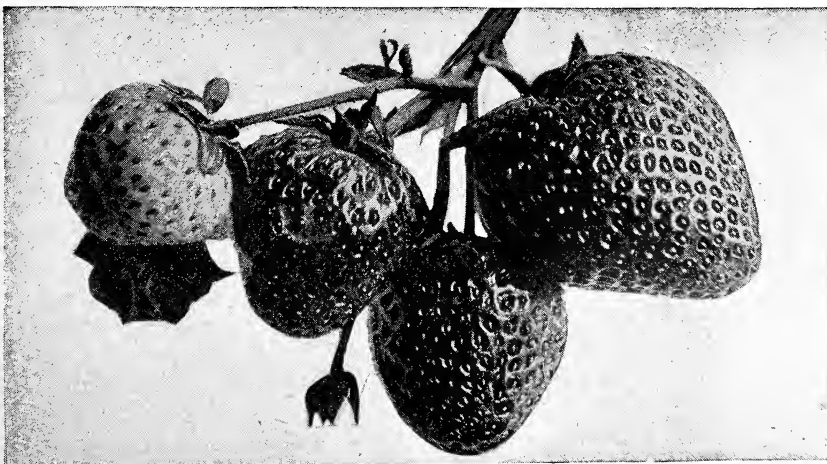

We consider the Progressive the very best of the
Everbearing varieties and offer only this kind.

	Per 25	Per 100	Per 1000
Plants	\$1.50	\$ 5.00	\$40.00

Progressive

Ord, Nebr.
Aye Bros., Blair, Nebr.: Please find enclosed
postage on strawberry plants. They came in fine
condition and have them all set out. Thank you
very much. Yours truly, J. C. BRESLEY.

Everbearing Strawberry

The above is a picture of our new poultry house on our poultry farm adjoining Blair. It is 400 feet long, 20 feet wide, is electrically lighted, has three hydrants, root cellar, store room for feed and loft for straw and is probably one of the most up-to-date big poultry houses in America.

Pure Bred Poultry

WE have been in the pure bred poultry business over 25 years and during that time have sold thousands of birds and tens of thousands of eggs to customers all over the United States, Canada and Mexico and most of our customers come back year after year which proves that we must be giving satisfaction.

A quarter of a century ago we started selling Barred Rocks and the demand for other varieties has increased until today we are selling almost fifty varieties, and are one of the largest shippers in the West.

Over 200 different families are helping us produce enough poultry and eggs to supply the present demand.

We have the largest salesroom for pure-bred poultry in the state. It takes over 225 individual coops in which to exhibit our poultry for the trade.

Adjoining Blair we have a 14-acre poultry farm with a building 400 by 20 feet, probably the largest in the state. It is up-to-date in every respect; it has three hydrants for city water, electric lights, double walls, swinging doors, open front.

We believe we are in better position than ever to take care of our trade. We have been advertising Blair as the "Seed Corn Center of the World," and if the poultry business keeps on it can be truly called the "Poultry Center of the World" also.

As we have almost 50 varieties to select from it should not be hard for you to make a choice. We are handling most of the popular breeds. If you send in an order for either poultry or eggs we will do our very best to please you.

We don't sell as cheap as some or as high as others, but we believe we are giving better value for the money than you can get anywhere else. We guarantee to send you good fresh eggs and that the eggs are fairly fertile. We don't guarantee a chick from every egg or that every chick will grow into a prize winner. If you get a poor hatch and we are to blame, we will duplicate infertile eggs for half price. If you are not satisfied with the stock we ship you, you can return it within three days and we will refund your money, less express charges.

Send cash with order, and if anything is not exactly as we say it is, return it and get your money back. Isn't that fair?

From present indications it seems that there will be a shortage of breeding stock before the season is over. On account of the high price of feed lots of specialty breeders have reduced their flock and some of the people who have been raising poultry for us have sold their young stuff during the summer. We are at present fairly well supplied with most of the popular varieties and can fill orders promptly and usually we get orders out within a day after we receive them. We will be short on some of the less popular varieties, but can fill orders on most of them.

We will do our best to please you and we think we can.

Prices on Poultry, Turkeys, Ducks and Geese will run about as follows for good breeding stock:

Cocks and Cockerels of all Varieties

\$3.75 to \$4.25 each for good birds. \$6.00 each for extra good birds. \$2.75 each for later hatched birds if taken in lots of four or more. We sometimes have some very choice frosted comb cocks and cockerels that we offer for \$2.75 and up if taken in lots of four or more.

We usually have a few extra choice cockerels or cocks that we will sell at \$7.50 to \$10.00 each. If in need of something extra choice write us.

Morrill, Kansas.

Aye Bros., Blair, Nebr.: I received the White Orpington Cockerels all O. K. Nice birds. Yours truly, B. F. ELLIOTT.

Waterbury, Nebr.

Aye Bros., Blair, Nebr.: It is just about a month since we received our Ancona chickens from you and we are surely well pleased with them. The twelve hens have laid up to date 234 eggs. We have 27 baby chicks from the first 30 eggs we set so they surely are fertile. Yours truly, PAUL B. LENDERINK.

Canton, Kansas.

Aye Bros., Blair, Nebr.: Received your roosters some time ago. Two of them sure are fine ones and there was a party here today who said I should write you a letter and see if you had any more such nice roosters. I am doing all I can to build up your business, so let me know if you have any

Hens and Pullets of All Varieties

\$2.50 to \$4.00 each. Later hatch, \$2.00 to \$2.50 each, if taken in lots of four or more.

Geese

Ganders, \$5.00 to \$6.00 each. Geese, \$5.00 to \$6.00. Smaller or later hatched ganders and geese, \$3.50 to \$4.00 each.

Ducks

Drakes, \$3.50 to \$5.00. Ducks, \$3.00 to \$4.00 and Trios, \$8.50 to \$10.00.

Turkeys

Gobblers, \$8.00 to \$12.00 each. Hens, \$7.50 to \$9.50. All poultry is sent by express but eggs for hatching can be sent by Parcel Post or Express.

more roosters for sale and the price. Please send me some envelopes and order blanks as I intend to order eggs as soon as the weather permits. Answer at once. Yours truly, ARTHUR HENKE.

Sumner, Nebr.

Aye Bros., Blair, Nebr.: Received Leghorn roosters and was well pleased with them. Yours truly, JACK BUSH.

Mitchell, Nebr.

Aye Bros., Blair, Nebr.: I received the Rose Comb Red Cockerels I ordered from you in fine condition. Am well pleased with them. Can you furnish me with eggs from stock that is not related to these birds? Yours truly, J. E. DOROTHY.

Coon Rapids, Iowa.

Aye Bros., Blair, Nebr.: I received the Silver Laced Wyandotte cockerel O. K. I think he is a fine bird. Am sure pleased with him. Yours respectfully, MRS. C. L. CHARLES.

BARRED PLYMOUTH ROCKS

The Barred Plymouth Rocks are without doubt the most popular fowl in America today. They do well anywhere. They are hardy, grow rapidly, pullets lay early and they mature early and are a splendid table fowl.

Show birds a matter of correspondence. We are very strong on Barred Rocks.

Price:

Cocks and Cockerels, \$3.75 and \$4.25 each for good birds.

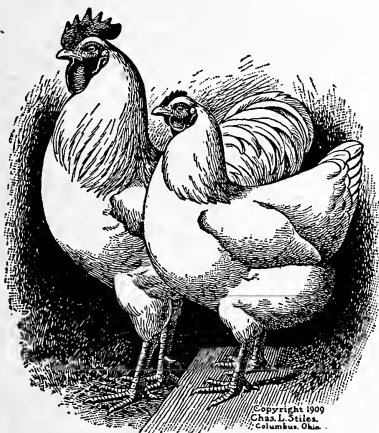

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 and up for later hatched or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$4.00 each. Later hatch \$2.00 to \$2.50 each, if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Extra choice Cockerels, \$7.50 each.

WHITE PLYMOUTH ROCKS

White Plymouth Rocks are just like Barred and Buffs with the exception of color, which is pure white. From the time of its introduction it came to the front very rapidly and today is one of the leading varieties.

Price:

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 and up for later hatched or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$4.00 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

PARTRIDGE PLYMOUTH ROCKS

Shape is the same as Barred Rocks and color is that of a Partridge Cochins.

Price:

Cocks and Cockerels, \$4.25 to \$5.00 each.

Hens and Pullets, \$2.75 to \$4.00 each.

Eggs, \$2.50 per 15; \$4.50 per 30.

COLUMBIAN PLYMOUTH ROCKS

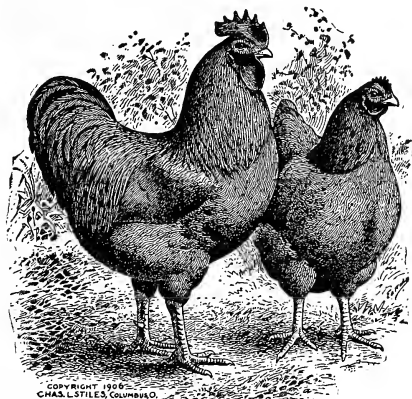

Shape is the same as Barred Rocks but color is like the Light Brahmas.

Price:

Cocks and Cockerels, \$4.25 to \$5.00 each.

Hens and Pullets, \$2.75 to \$4.00 each.

Eggs, \$2.50 per 15; \$4.50 per 30.

BUFF PLYMOUTH ROCKS

The Buff Plymouth Rocks have the same shape as the Barred and the same characteristics, but are Buff in color.

We have some fine Buffs to offer. Some people prefer the Buff to the Barred on account of their color.

Price:

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 and up for later hatched or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$4.00 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Armel, Colo.

Aye Bros., Blair, Nebr.: Received cockerels all O. K. Am well pleased with them. Yours truly, A. H. BREUMGER.

Rockford, Iowa.

Aye Bros., Blair, Nebr.: The geese we got from you in the fall are doing fine. Yours truly, CHAS. O'NEILL.

Kiron, Iowa.

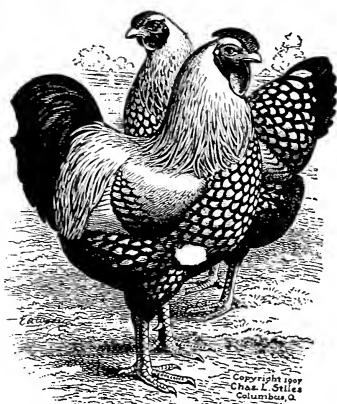

Aye Bros., Blair, Nebr.: I am more than satisfied with the geese as they look so nice and they are so tame they will eat out of our hand. Yours truly, MRS. EMIL KUHL.

Coon Rapids, Iowa.

Aye Bros., Blair, Nebr.: I received the Buff Orpington cockerel O. K. Am well pleased with him. Think he is a fine bird. Yours respectfully, CLIF. FORD DINNEL.

Atwood, Kansas.

Aye Bros., Blair, Nebr.: I want to thank you for the fine pair of Barred Rock Roosters you sent me last spring. They all smile when they look at this fine big pair of birds and I want to thank you for your fine selection. I am sending you draft of \$1.50 for one setting of Barred Rock eggs. Yours truly, FRANK TURNER.

**SILVER LACED WYANDOTTES**

Are sometimes called the beauty breed. They are hardy and mature early, good layers and, in fact, are all around good chickens.

Price:

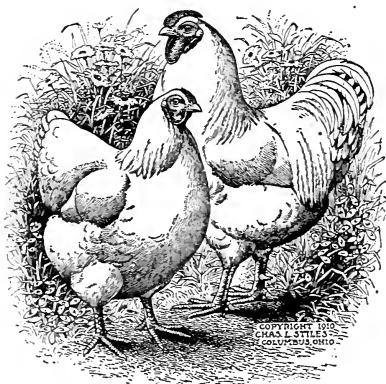

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 and up for later hatched or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$4.00 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

**WHITE WYANDOTTES**

The plumpest looking fowl and one of the most popular is the White Wyandotte. They are becoming a favorite with lots of chicken raisers and there is a big demand for them. They are about a pound lighter than the Plymouth Rocks.

Price:

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 and up for later hatched and frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

GOLDEN WYANDOTTES

Golden Wyandottes are a very rich colored bird. They have rose combs, yellow skins and legs; they are splendid layers the year around; chicks are hardy; grow fast and mature early.

Price:

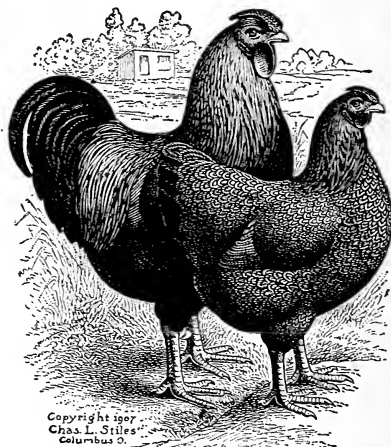

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds, but later hatch.

Hens and Pullets, \$2.50 to \$4.00 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

**PARTRIDGE WYANDOTTES**

Wyandotte in shape and colored like the Partridge Cochins.

Price:

Cocks and Cockerels, \$4.25 to \$5.00 each.

Hens and Pullets, \$2.50 to \$4.00 each.

Eggs, \$2.50 per 15; \$4.50 per 30.

COLUMBIAN WYANDOTTES

Wyandotte shape and markings of the Light Brahmas.

Price for stock and eggs are same as for Partridge Wyandottes.

BUFF WYANDOTTES

Have Wyandotte shape but are Buff in color.

Price for stock and eggs the same as for Partridge Wyandottes.

Axtell, Nebr.

Aye Bros., Blair, Nebr.: The two Barred Rock cockerels are here and are nice birds. I will promise to solicit future business for you, in fact, I know of some parties here now who say they will send for eggs and cockerels from you since seeing the ones I received. Thanking you, I am, Yours respectfully, JAS. JOHNSON.

Palmyra, Nebr.

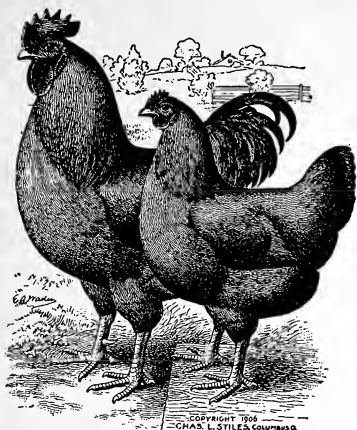

Aye Bros., Blair, Nebr.: What prices can you give me on four White Rock hens one year old for good breeders? I bought a pen of White Orpingtons from you two or three years ago and was well pleased with them. Have as good a bunch of them now as there is in the state. Yours truly, LESTER SHELLEY.

Arvada, Wyo.

Aye Bros., Blair, Nebr.: The cockerel we ordered of you arrived in good shape and I wish to say we are very well pleased with it. Yours respectfully, MRS. W. J. TUBBS.

West Point, Nebr.

Aye Bros., Blair, Nebr.: The cockerels got here all right and I am satisfied with them. They suit me in size and color. Yours truly, FRANK H. WORTMAN.

Single Comb Reds
SINGLE COMB REDS
(Rhode Island Reds)

The Rhode Island Reds have become very popular in a very short time and they have lots of merit. They are one of the hardiest fowls grown, are quick growers, mature early, pullets lay early and are great rustlers, and as a table fowl cannot be excelled.

Rhode Island Reds have a red plumage and are very beautiful.

Price:

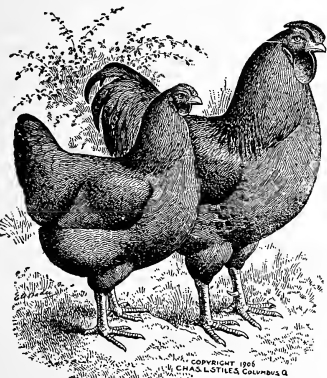

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$4.00 each. Later hatch, \$2.00 to \$2.50 each, if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Rose Comb Reds
ROSE COMB REDS

The same as S. C. R. I. Reds except these have rose combs.

Price:

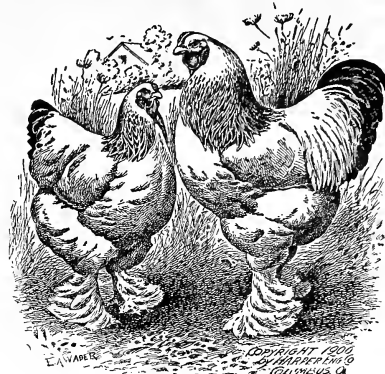

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$4.00 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Light Brahmas
LIGHT BRAHMAS

The Light Brahma is the largest fowl on earth and are a splendid chicken for town lot, as they stand confinement well.

Price:

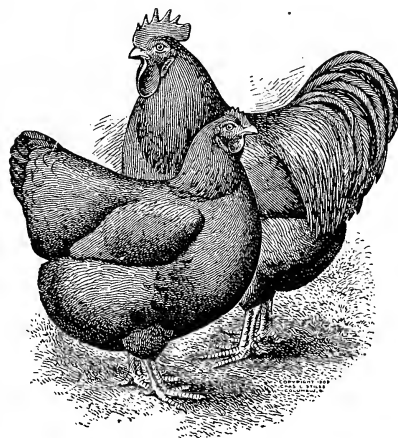

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 each and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$4.00 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Buff Orpingtons
BUFF ORPINGTONS

The Buff Orpingtons have become very popular in the last few years, and they are a good variety, too. They have deep, full bodies, well rounded; quiet disposition and the females make fine mothers.

They have clean legs and they make a fine general purpose fowl. Buff Orpingtons have good weight and we have some very big, choice stock.

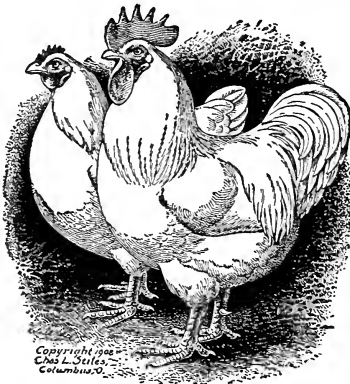

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 each and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$4.00 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

White Orpingtons

WHITE ORPINGTONS

Same as Buff except in color. The White Orpingtons have been attracting a great deal of attention at some of our biggest poultry shows and they have commanded very high prices.

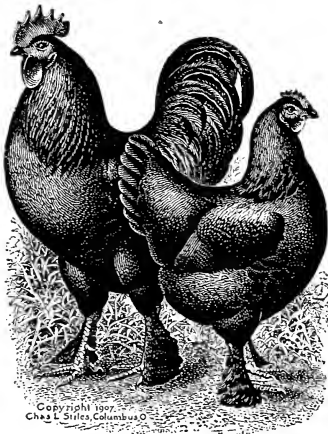

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 each and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$4.00 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Black Langshans

BLACK LANGSHANS

The Black Langshan is a beautiful black, especially beautiful in the sunshine.

Langshans have single comb, are quite tall, loose feathers, large size, very attractive for a big chicken, feathers on their legs and stand cold weather remarkably well. They are good winter layers.

Price:

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 each and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

WHITE LANGSHANS

These fowls are very handsome. They are very hardy. They attain maturity quite early; are excellent setters and mothers. They have white flesh and skin. They are an excellent table fowl.

All the characteristics of the Black Langshans except color, which is white.

Price:

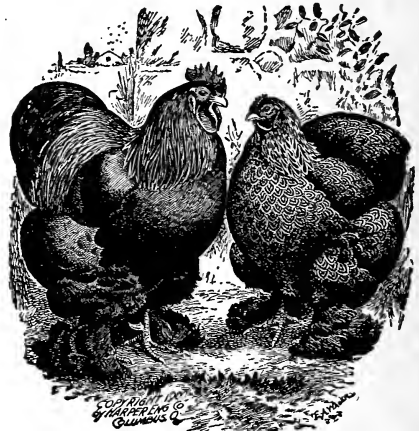

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 each and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Partridge Cochins

PARTRIDGE COCHINS

Are very hardy, easy to raise, very beautiful, stand confinement well; good layers and fine setters and mothers.

Price:

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 each and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

**DARK CORNISH INDIANS
Sometimes Called Indian Games**

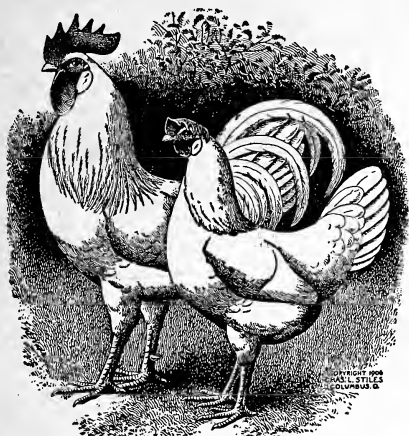

We usually have some very choice cockerels to offer at \$3.75 to \$6.00 each and a few hens and pullets at \$2.75 to \$4.00 each. Eggs, \$2.75 per 15 or \$5.00 for 30 eggs.

Monticello, Cal.
Aye Bros., Blair, Nebr.: The Barred Rock Cockerel I purchased from you is a fine bird. I have been asked to show him. Yours truly, E. E. CARVER.

Scotts Bluff, Nebr.
Aye Bros., Blair, Nebr.: Buff Leghorns received and am well pleased with them. Four pullets and cockerel are good enough to put in a show ring. Yours truly, A. E. STONER.

Rose Hill, Iowa.
Aye Bros., Blair, Nebr.: Received Partridge Cochins cockerel all O. K. He sure is a proud one and seemed to fall in love with Iowa people. Yours truly, MRS. E. R. GASTON.

Clearmont, Mo.
Aye Bros., Blair, Nebr.: Received the chickens last Saturday all O. K. and was well pleased with them. Thank you for your fine selection. Yours truly, MRS. AMY MILLER.

Single Comb White Leghorns

SINGLE COMB WHITE LEGHORNS

The S. C. W. Leghorn belongs to the Mediterranean Class. They are the largest of the Leghorn family and are regular egg-machines. Some of the largest exclusive egg farms in the U. S. have only White Leghorns in their yards. They are not a large fowl.

Price:

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 each and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Rose Comb Brown Leghorns

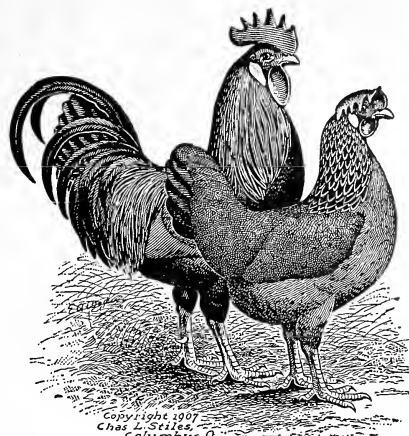

ROSE COMB BROWN LEGHORNS

Same characteristics as the S. C. White Leghorns except the color and comb.

Prices for stock and eggs the same as for the Single Comb White Leghorns.

Beatrice, Nebr.
Aye Bros., Blair, Nebr.: Received the chickens which you sent me and should have written sooner. I wish to thank you for sending me such nice birds, especially the Rock cockerel. He is certainly fine and I am very much taken up with the Orpington pullets. Again thanking you, I am, Yours truly, A. L. MOSEHEL.

Mt. View, Okla.
Aye Bros., Blair, Nebr.: I am more than pleased with the two settings of eggs we received. Eleven chickens hatched from the fifteen Ancona eggs and ten from the fifteen Langshan eggs. They are still living and doing fine. Yours truly, MRS. W. E. PATTON.

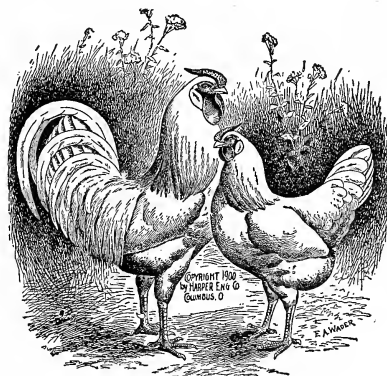

Single Comb Brown Leghorns

SINGLE COMB BROWN LEGHORNS

The Brown Leghorn is like the White, except in color. The Brown Leghorn is a very beautiful chicken and as a hustler, can't be beat, and the pullets begin laying at four months of age and if properly fed, will continue to lay all winter.

Prices for stock and eggs the same as for the Single Comb White Leghorns.

Rose Comb White Leghorns

ROSE COMB WHITE LEGHORNS

The Rose Comb White Leghorn has the same characteristics as the S. C. White, except the comb, which is a rose comb.

Prices for stock and eggs the same as for Single Comb White Leghorns.

SINGLE COMB BUFF LEGHORNS

They are great layers, equal to any if not superior to most other varieties, and in size they rank with other Leghorns; they are small eaters and bear confinement well. Our stock is of the best strains in the country.

Prices for stock and eggs the same as for the Single Comb White Leghorns.

ROSE COMB BUFF LEGHORNS

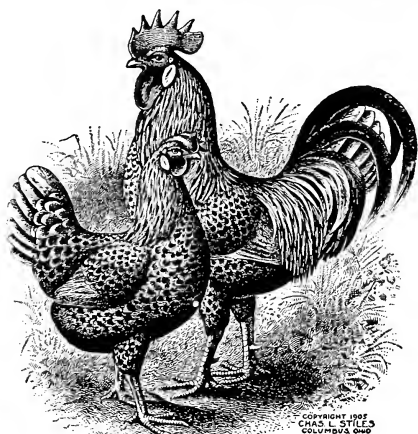

Same characteristics as Single Comb Buff Leghorns except they have a Rose Comb.

Prices for stock and eggs the same as for the Single Comb White Leghorns.

HOUDANS

We usually have a few cockerels to offer at \$4.25 to \$5.00 each and some pullets at \$2.75 to \$4.00 each.

Eggs, \$3.00 per 15.

Mottled Anaconas

MOTTLED ANACONAS

Color is a lustrous greenish black with about one feather in five tipped with white. They are great hustlers and good layers.

Price:

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

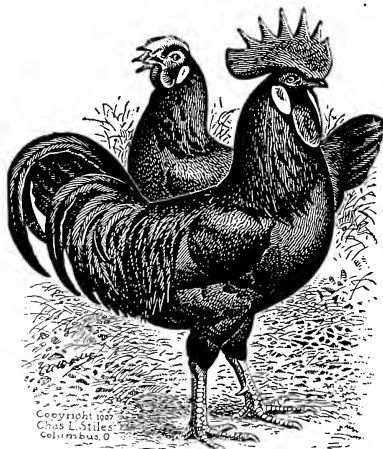

\$2.75 each and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

BLUE ANDALUSIANS

We usually have a few cockerels to offer at \$3.75 to \$5.00 each and some pullets and hens at \$2.75 to \$4.00 each. Eggs, \$3.00 per 15.

Single Comb Black Minorcas

SINGLE COMB BLACK MINORCAS

The plumage is a greenish metallic black in color. They have a large comb, white earlobes, legs a slate color. Larger than the Leghorns and they lay very large eggs.

Price:

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 each and up for later hatch or frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$3.75 each. Later hatch, \$2.00 to \$2.50 each, if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

ROSE COMB BLACK MINORCAS

Are like the S. C. Black Minorcas except they have a rose comb and are preferred by some people on account of their low comb.

Prices for stock and eggs the same as the Single Comb Black Minorcas.

SINGLE COMB WHITE MINORCAS

The White Minorcas chicken has all the characteristics of the Black Minorcas except color which is white. They are a handsome fowl.

Price:

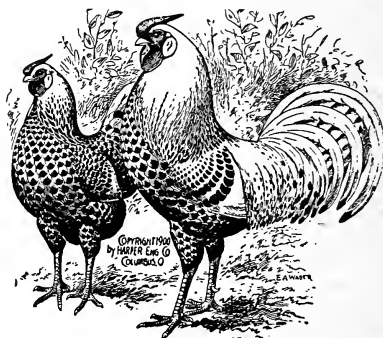

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 each and up for later hatch and frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$3.75 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Silver Spangled Hamburg

SILVER SPANGLED HAMBURG

One of the most beautiful varieties in existence Everybody admires them and they are great layers but non-setters.

Price:

Cocks and Cockerels, \$3.75 to \$4.25 each for good birds.

Cocks and Cockerels, \$6.00 each for extra good birds.

\$2.75 each and up for later hatch and frosted combed males if four or more are taken.

Hens and Pullets, \$2.50 to \$3.75 each. Later hatch, \$2.00 to \$2.50 each if four or more are taken.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Chappell, Nebr.

Aye Bros., Blair, Nebr.: Received the ganders in good condition. They are O. K. Respectfully, CHAS. BOVARD.

Mason City, Ill.

Aye Bros., Blair, Nebr.: Received the Single Comb Red Cockerels yesterday and can say we were highly pleased with them. Yours truly, FRANK E. HUBBARD.

Unadilla, Nebr.

Aye Bros., Blair, Nebr.: Received ducks today and am well pleased with them. Yours truly, HARVEY WEST.

Deshler, Nebr.

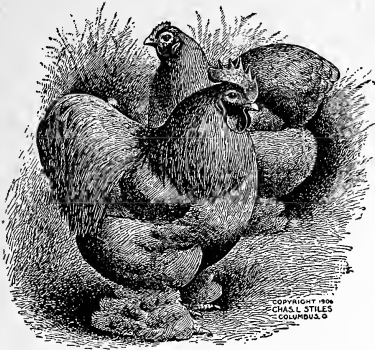

Aye Bros., Blair, Nebr.: We received the Barred Rock hens and cockerels Saturday and think they are fine. Yours truly, R. H. RAY.

Butte, Nebr.

Aye Bros., Blair, Nebr.: I received the geese in first class condition and am well pleased with them. Yours truly, JOSEPH KIRST.

Kimberely, Idaho.

Aye Bros., Blair, Nebr.: Received the Golden Laced Wyandotte Cockerel and am well satisfied with him. Am sending check for balance. Yours truly, F. E. DAVIDSON.

Buff Cochins Bantams

We have only one breed of Bantams. The Buff Cochins are, we think the most attractive of all Bantams, and because of their shape are much more pleasing to children. They are much tamer than any other Bantams and are great pets.

Price:

Cockerels, \$3.00 each; hens, \$2.25; pairs, \$5.00. Eggs, \$1.50 per 15.

PEARL GUINEAS

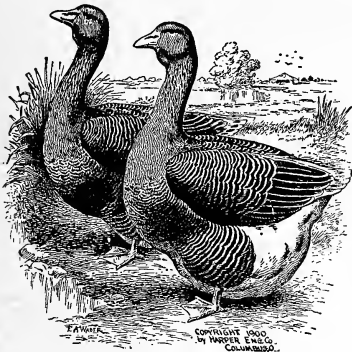

Guineas are of a wild disposition and their meat is equal to some of the best wild game. They are quite profitable.

Price:

Cockerels, \$2.25; hens, \$2.00.

WHITE AFRICAN GUINEAS

Can furnish a few males and females and also eggs. Price same as Pearl Guineas.

Toulouse Geese

TOULOUSE GEESE

Are gray in surface color and under part of body a shade lighter. They are very large. They are hardy, lay well and are easy to raise.

Price:

Ganders, \$5.00 to \$6.00 each. Large Geese, \$5.00 to \$6.00. Later hatch, Ganders, \$3.50 to \$4.00. Later hatch, Geese, \$3.50 to \$4.00. Large Trios, \$13.00 to \$18.00. Eggs, \$3.00 per seven; \$5.75 per fourteen.

WHITE EMDEN GEESE

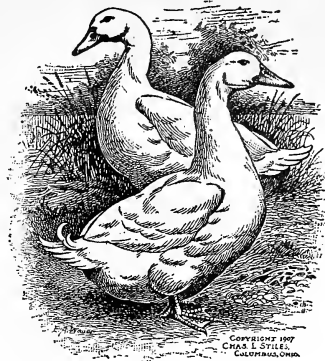

This is a very profitable white goose to raise. Prices for stock and eggs same as for Toulouse Geese.

Kiron, Iowa.

Aye Bros., Blair, Nebr.: Received the Barred Rocks from you today in good condition and am well satisfied with them. Think I can order eggs from you in the near future. Yours truly, LESLIE CLAUSON.

Humboldt, Nebr.

Aye Bros., Blair, Nebr.: Received the White Langshan chickens O. K. and am much pleased with them. Would like to know if you can furnish me any more of same quality at same price. Respectfully, MRS. E. A. FRIEDLY.

Pekin Ducks

PEKIN DUCKS

The Pekin Duck is very popular and profitable. They are creamy white in color, are very deep bodied and grow very rapidly and are very easy to raise, as they are not subject to many of the diseases poultry is heir to.

Price:

Drakes, \$3.50 to \$5.00 each. Ducks, \$3.00 to \$4.00 each. Pairs, \$5.50 to \$7.00. Trios, \$8.00 to \$11.00. Eggs, \$1.75 per 11; \$4.50 per 30.

ROUEN DUCKS

Are a very hardy breed and are considered one of the most profitable varieties.

Prices for stock and eggs the same as for Pekins.

Indian Runner Ducks

INDIAN RUNNER DUCKS

Are the leghorns of the duck family. Fawn and white. Duck eggs are fine both for the table and for cooking, excel the hen egg in most cases, especially for scrambling eggs and custards. When it is possible to get an egg a day for weeks at a time we have a strong argument for raising more ducks. Their meat is very tender and juicy.

Prices for stock and eggs same as for Pekins.

WHITE INDIAN RUNNER

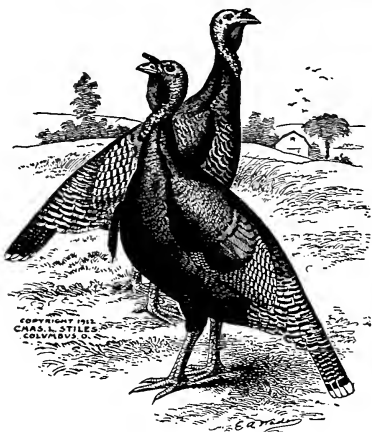

Ducks are like the fawn and white except that they are white in color.

Price for stock and eggs same as for Pekins.

MUSCOVY DUCKS (Colored)

The Muscovy Ducks are one of the good varieties to have around. They don't make any noise and lay a large number of eggs. Stand confinement well.

Prices for stock and eggs same as for Pekins.

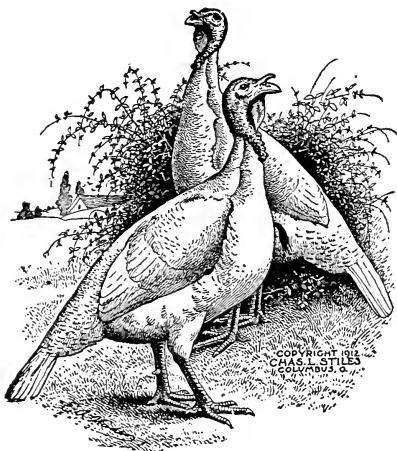

Mammoth Bronze Turkeys

MAMMOTH BRONZE TURKEYS

The Bronze is the largest and most popular turkey. Their plumage is a rich metallic bronze. They are great layers, some laying as high as from 80 to 100 eggs in a season.

Price:

Toms, \$8.00 to \$12.00 each; hens, \$7.50 to \$9.50 each. Eggs, \$3.50 for seven.

White Holland Turkeys

WHITE HOLLAND TURKEYS

Here is the ideal turkey for those who have limited space. They seldom wander away from home.

Price same as for Mammoth Bronze Turkeys.

BOURBON RED TURKEYS

A new variety of Turkey that seems to take well.

Price for stock and eggs the same as for the Mammoth Bronze.

Van Tassell, Wyo.

Aye Bros., Blair, Nebr.: The cockerel arrived O. K. and I am well pleased with him. Yours truly, MRS. GEO. E. WOLFE.

Henry, Nebr.

Aye Bros., Blair, Nebr.: Received poultry all right and am well pleased with them and thank you for the selection you sent me.. Yours truly, MRS. KITTIE H. DEBROT.

Fair Oaks, Ind.

Aye Bros., Blair, Nebr.: Enclosed please find \$1.40 for express you paid for me on chickens. They arrived in fine shape and am well pleased with them. Have started to lay already. Yours truly, BERT DeMOSS.

Elmo, Mo.

Aye Bros., Blair, Nebr.: The roosters I got from you are doing fine. Everyone that sees them wants to know where I got them. I don't get enough eggs to supply the demand. Respectfully, FRED GLASSFORD.

Benkelman, Nebr.

Aye Bros., Blair, Nebr.: I received the two cockerels you sent me and am well pleased with them. Yours truly, C. L. FLEENER.

Lincoln, Nebr.

Aye Bros., Blair, Nebr.: I received geese in fine shape Saturday A. M., and am well pleased. They sure are large and beautiful. Yours truly, MRS. C. E. ATEN.

Dodge, Nebr.

Aye Bros., Blair, Nebr.: We received our order from you Feb. 1., and were very much pleased with the turkeys and chickens. They were all O. K. Yours truly, ALBERT MANDEL.

Brady, Nebr.

Aye Bros., Blair, Nebr.: I received my Rose Comb White Leghorn chickens and was well pleased with them. Yours truly, MRS. JOHN CONNELLY.

Monte Vista, Colo.

Aye Bros., Blair, Nebr.: The Rose Comb Red Cockerels arrived all O. K. We are well pleased with them. Yours respectfully, R. L. KNAPP.

Elliott, Iowa.

Aye Bros., Blair, Nebr.: The Buff Orpington cockerels I bought of you a few years ago were the most satisfactory birds I ever bought, regardless of price. I have paid as high as \$11.00 for one, but yours were the best. I am breeding for utility now, not show birds. Yours truly, MRS. T. E. GRAHAM.

Concord, Nebr.

Aye Bros., Blair, Nebr.: Thank you ever so much for those beautiful Rose Comb Red Cockerels received last night. Am well pleased with them. They are just exactly what I wanted. Yours truly, ELMER W. OLSON.

Page, Nebr.

Aye Bros., Blair, Nebr.: The Single Comb White Leghorn cockerel got here all right. He is a Tip Top bird and I am well pleased with him. Thank you for your prompt shipment. Yours truly, H. L. DANKENBRING.

Fleming, Colo.

Aye Bros., Blair, Nebr.: Am well pleased with the pens of Black Langshans and Partridge Cochins you sent us. Yours truly, G. W. FEY.

Greeley, Colo.

Aye Bros., Blair, Nebr.: Black Langshan cockerel arrived yesterday in fine condition. He is a splendid bird. Thanks. Yours truly, HENRY STRAIGHT.

Bonesteel, S. D.

Aye Bros., Blair, Nebr.: The two Buff Orpington cockerels sent are superb, fine, big fellows. All I could expect and a little more. Yours truly, F. I. TERPIN.

Table, Nebr.

Aye Bros., Blair, Nebr.: I received the Light Brahmas in fine shape and they are nice birds. Thank you for your prompt shipment. Wishing you further success, I am, Yours truly, F. W. ROSENTRATER.

GERMIKIL

(TRADE MARK)

The Greatest Remedy in the World For
**ROUP, CHOLERA, BOWEL TROUBLE, SORE HEAD, DIARRHOEA, CUTS, BURNS, OLD SORES, WOUNDS
OF ALL KINDS, ETC., ETC.**

IT IS GOOD ALIKE FOR MAN, BEAST AND FOWL

A large sized volume could be written upon the value of this preparation and its many applications. As a **TONIC** and **CORRECTIVE**, give one tablet in each half gallon of drinking water, twice a week to old and young. The value of this practice is incalculable as it destroys all germ life in the drinking water, keeps the digestive organs free from all disease germs and is one of the best of all tonics. Not alone is this the most valuable preventative medicine known to medical science, but when your fowls are sick it is the remedy **PAR EXCELLENCE**.

Bowel Trouble

Is the scourge of the young brood, and who has not seen a whole brood of young promising chickens all die within two weeks of the so-called white diarrhoea? For this, no remedy is equal to our celebrated Germikil. Move your brood if possible to a new location, clean thoroughly, disinfect the coop or brooder and then dissolve one tablet of Germikil in each quart of drinking water and let the chickens doctor themselves.

Cholera

Germikil is equally effective in the cholera of matured fowls and should be used constantly as above until all are well.

For Frosted Combs, Wattles and Feet

Use one tablet in half a teacup of water. Apply once or twice a day.

Roup in Fowls

Is the same as a bad cold in the nose or throat and is usually due to overcrowding in a small poultry house with insufficient ventilation. A square of muslin nailed over the window hole is better than the glass sash. The simple way of treating roup is to dip the fowl's head in a solution of Germikil, one tablet to a pint of water. In its effort to breathe the fowl will draw the solution through its nostrils and throat. In some cases it is a good practice to soak off with a warm Germikil solution the dried secretion about the nostrils before the head is dipped. If a thick and tough deposit is seen on the tongue and in the throat it would be well to apply the solution double strength by means of a swab.

Diphtheria Canker

Chickens undoubtedly are subject to true diphtheria. You will no doubt notice in examining such a sick fowl a very bad odor. Aside from the fetid odor, the symptoms are very similar to roup. Take all such sick fowls clear away from your flock, swab the throat every three hours with a very strong solution of Germikil and dip the head as directed in roup.

Other Uses For Germikil

All recent cuts, lacerations, sore eyes (not chronic) may be greatly benefited by using a solution of one tablet of Germikil to one pint of water, bathing the parts four or five times a day. All old unhealthy cuts or wounds, ulcers and sores which do not show a ready inclination to heal are greatly benefited by the application by means of a swab or cotton compress of a strong solution of Germikil, one tablet to a half cup of water. The foregoing applies equally to man or beast.

Sore Shoulders and Necks on Horses

The sore shoulders and sore necks of horses are quickly healed by frequent bathing with a solution of Germikil, one tablet to a pint of water.

Sweating Feet

A solution of Germikil five to ten tablets to a quart of water is an excellent remedy for sweating feet, and if desirable to remove the stain (as it colors the feet quite red) it may be done with a solution of oxalic acid, two drams to the pint.

Snake Bites

A solution of Germikil, one tablet in four teaspoonfuls of water may be applied to a bite or a solution of one tablet to ten teaspoonfuls of water injected under the skin is considered the best local antidote known for the bites of poisonous reptiles. This solution may be used for bee stings, spider bites, etc., etc.

As a Preventive of Roup.

And all poultry diseases dissolve a number of tablets of Germikil in a fruit jar of water and every day or two put enough of this solution in your chickens' drinking water to color it a claret wine red color, and your fowls will doctor themselves. We are practical poultrymen, having been in the business twenty-five years and we find that Germikil is the best all around remedy on the market for roup, cholera, bowel trouble, cuts, burns, old sores, etc.

YOUR MONEY BACK if this remedy fails to do what we claim for it. Remember we guarantee each and every box. We honestly believe that if each and every poultry raiser would constantly use Germikil there would be very little disease in the poultry yard. And the nice thing about this remedy is that it is so little trouble to use it.

Don't wait until your fowls are sick for it is easier to prevent disease than to cure it. Always use Germikil to prevent all foul troubles, for it is the best medicine in the world to keep chickens healthy, as it destroys the germs before they get into the system.

As a Cure

Dissolve enough tablets in water so as to make the water a dark red color and apply the solution to the afflicted parts.

If hands are stained when applying a strong solution of Germikil **DON'T** use soap to remove the stains. Use a weak solution of oxalic acid or just lemon juice to remove stains. Don't use any other remedies in connection with Germikil. We have lots of satisfied customers of Germikil and we know that **YOU** can get results by using Germikil.

Germikil has been used three years at the Nebraska State Fair in the poultry department and two years at the Nebraska State Poultry Show and the secretary of both says the results have been good.

Keep a box on hand all the time.

Results are what you are after and the judicious use of Germikil will help you. The price of Germikil is only 60c a box postpaid anywhere.

MET THE TEST

Every poultryman is well aware of the inevitable effects of roup when once it has gained a strong foothold on the flock, and many a time has the blue ribbon winner, or the best breeder, met its fate on account of this dreaded disease. Various preparations of more or less merit have been placed on the market as a cure for this disease, though all have not made the test.

One preparation that has met the test is Germikil, which was used very satisfactorily by the Nebraska State Poultry Association at their big show at York in January. It is manufactured by Aye Bros., of Blair, Nebraska. Germikil is a scientific production, prepared by competent experts and compounded after years of diligent research and experiments.—AMERICAN POULTRYMAN, Lincoln, Nebr.

THINKS GERMIKIL IS JUST FINE

Gordon, Nebr.

Aye Bros., Blair, Nebr.: I have used quite a bit of your Germikil in cases of Roup, Cholera, Sore Eyes and other poultry troubles and it never failed to cure them. I have tried other remedies and it did not cure them so I think Germikil is just fine. Yours truly, GUY R. TRIPLETT.

THE ONLY THING FOR POULTRY

Malmo, Nebr.

Aye Bros., Blair, Nebr.: Enclosed you will find a money order for which please send me two boxes of Germikil. I cannot be without it as it is the only thing for my poultry. Yours truly, JOS. HOUFEK.

WANTS MORE GERMILKIL

Davenport, Nebr.

Aye Bros., Blair, Nebr.: Some time ago I ordered a box of Germikil and found it to be a great remedy for chickens, so find enclosed a money order and send me some more. Yours truly, JOSEPH KASAK.

BEST SHE EVER USED

West Point, Nebr.

Aye Bros., Blair, Nebr.: Please find enclosed money order for one box of Germikil. I must say it is the best I have ever used. Yours truly, MRS. FRANK H. WORTMAN.

A SURE PREVENTATIVE OF CHOLERA

Denison, Iowa.

Aye Bros., Blair, Nebr.: Enclosed find money order for which send me two boxes of Germikil. It is a sure preventative of Cholera. Yours truly, MRS. HANS BLOHM.

GERMIKIL A SURE CURE

Verdigree, Nebr.

Aye Bros., Blair, Nebr.: Enclosed you will find an order for three boxes of Germikil—the best Roup Cure that was ever made. Roup and Germikil can't be together, one of them has to go and Roup always does. Yours truly, JOS. V. BERAN.

A PRICELESS REMEDY

Richland, Nebr.

Aye Bros., Blair, Nebr.: Please find enclosed Post Office Money Order for two boxes of Germikil. We find it a priceless remedy for poultry. Sincerely yours, REV. E. L. ANDERSON.

THINKS IT FINE

Moorhead, Iowa.

Aye Bros., Blair, Nebr.: Please find enclosed money order for two boxes of Germikil. I think it is fine indeed and do not want to be without it after this. Yours truly, BEN ADAMS.

THE ONLY CURE FOR ROUP

Cedar Bluffs, Nebr.

Aye Bros., Blair, Nebr.: I have used Germikil for Roup and think it is the only cure for that awful disease among chickens. I am ordering six boxes. Please send as soon as possible and oblige. Yours truly, MRS. KATIE JURGENS.

RECOMMENDS GERMILKIL TO ALL POULTRY
RAISERS

Pisgah, Iowa.

Aye Bros., Blair, Nebr.: I have used nearly one box of Germikil and find it is the best remedy I have ever had for fowls and chicks and feel I could not get along without it. I highly recommend it to all poultry raisers. Yours truly, MRS. JOHN GRANDGENETT.

FINDS IT TO BE O. K.

Fullerton, Nebr.

Aye Bros., Blair, Nebr.: Please send me two boxes of Germikil for the enclosed money order. Have been using it since last spring and find it to be O. K. Yours respectfully, R. A. MAWHINNEY.

USES GERMILKIL AS A PREVENTATIVE

Capell, Cal.

Aye Bros., Blair, Nebr.: I use Germikil as a preventative about once a week and have had no disease. Yours truly, E. E. CARVER.

ORDERS ONE DOZEN BOXES

Lake Villa, Ill.

Aye Bros., Blair, Nebr.: Received your tablets and am much pleased with them. My last hatch is almost a week old and have not lost a chick. Please send one dozen boxes by return mail and oblige. Yours truly, MRS. E. A. HOOK.

THINKS GERMILKIL IS GRAND

Braymer, Mo.

Aye Bros., Blair, Nebr.: Please find enclosed cash for two boxes of Germikil. We have been using it for some time and think it grand indeed. Yours respectfully, JOHN CASHATT.

BEST ROUP REMEDY MADE

Rouse, Colo.

Aye Bros., Blair, Nebr.: I have used your Germikil this summer and find it the best remedy for Roup and White Diarrhea in baby chicks that is made. I used the Germikil as per directions and raised over 500 chicks. Have recommended it to my friends as a sure cure. Yours truly, P. B. HART.

CANNOT PRAISE GERMILKIL ENOUGH

Plymouth, Nebr.

Aye Bros., Blair, Nebr.: Enclosed you will find cash for which send me two boxes of Germikil. I can't praise it enough. It sure is good medicine. Please send by return mail and oblige. Yours truly, MRS. HENRY KUESTER.

COULD NOT BE WITHOUT IT

Trout Creek, Mont.

Aye Bros., Blair, Nebr.: Send me another box of Germikil at once. Could not be without it. Yours truly, F. W. MURLLRO.

BEST POULTRY REMEDY USED

Malmo, Nebr.

Aye Bros., Blair, Nebr.: Enclosed you will find check for which please send me six boxes of Germikil as my poultry cannot be without it. It is the best remedy I have ever used. Yours truly, JOS. HOUFEK.

CANNOT RAISE CHICKENS WITHOUT IT

Austin, Colo.

Aye Bros., Blair, Nebr.: Enclosed find money order for which please send me two boxes of Germikil. I could not raise chickens without it. Yours truly, MRS. H. R. KREGER.

NOT SAFE WITHOUT GERMILKIL

Anoka, Minn.

Aye Bros., Blair, Nebr.: Please send me one dollar's worth of Germikil by return mail. In two days I will have another batch of chicks and I don't feel safe unless I have it to use. Yours respectfully, MRS. ED BALL.

Ize Healing and Antiseptic Powder

For sore necks and shoulders on horses.
When spring work begins there is always more or less trouble with sore necks and shoulders on the work horses. We believe that Ize Healing Powder dusted on the sore spots will heal them while the horses are at work.

Just clean sore spot with soap and water and dust with this powder. The price is 50 cents per box, postpaid. Easy to use, as top of box is perforated.

Ize Lice Ointment

Kills Lice, Nits and Mites on Poultry.
It is a poison.

Take a small piece the size of a pea and rub well in under the vent, back of the head and under the wings and it will keep your poultry free from lice and nits for six months or a year. Try a box, it only costs 50 cents. Enough for 100 hens.

Ize Canadian Horse Colic Remedy

Every owner of horses should have some reliable remedy on hand for horse colic. One season we lost two horses with horse colic and when the third horse had an attack we called in a veterinarian who happened to be a Canadian and he fixed up some medicine for us to give to the sick animal and after we gave three doses the horse was well. We have never been without this colic remedy since. Put 25 to 30 drops of Ize Canadian Horse Colic Remedy on a half tablespoonful of sugar and medicine on back part of horse's tongue. Give every hour till horse is well. Price, \$1.00 per bottle. You can't afford to be without it.

Ize Rat Exterminator

Rats and mice are without a doubt one of the worst pests that mankind has to contend with. There are lots of rat killing poisons on the market and we have tried lots of them but we never could get rats to take kindly to most poisons until we run across Ize Rat Exterminator. It is easy to use. Sprinkle some of the rat exterminator on some raw liver or meat cut in small pieces and put where rats and mice can get it. Repeat in 10 days or two weeks. \$1.00 per box.

Shenandoah, Iowa.

Aye Bros., Blair, Nebr.: Your letter of February 2nd clinches the deal. Every fellow who says "chicken" to us will be referred to you. We will be so busy that we can't send you carbon copies of what we are doing, but I will send you a few just to show you that we believe these fellows will get a square deal. Yours truly, HENRY FIELD SEED CO.

Fairview, Kan.

Aye Bros., Blair, Nebr.: I received the White Wyandotte cockerel all O. K. and am well pleased with him. The neighbors who saw him at the station also thought he was a nice bird. Sincerely yours, MARIE McNARY.

RAT EXTERMINATOR TESTIMONIALS

Blair, Nebr.

Aye Bros., Blair, Nebr.: I used your Rat Exterminator and got rid of rats by using poison just once. I like it so well I sent some out to my farm. W. R. McKEEN.

Blair, Nebr.

Aye Bros., Blair, Nebr.: I used your Ize Rat Exterminator and it cleaned my place of rats. HOMER H. WOOD.

Blair, Nebr.

Aye Bros., Blair, Nebr.: I used your Ize Rat Exterminator and got rid of the mice in my house. I put the poison in flour and mice ate flour and no more mice. W. E. SEARLES.

Blair, Nebr.

Aye Bros., Blair, Nebr.: I used some of your Ize Rat Exterminator according to directions and am well pleased with it. Can recommend it to any one who wants to get rid of rats. JOHN DULANEY, Chief of Police.

Carbola

Carbola is a disinfecting Germ-Killing White Mineral paint which we use in our poultry houses instead of whitewash. Can be put on with a brush or sprayer. A gallon of water added to one pound of Carbola makes a paint that will cover 250 square feet of space. 10 lbs. cost \$1.25 f. o. b. Blair. Is not caustic or poisonous but destroys mites and disease germs in poultry houses. As a paint and disinfectant for dairies, barns, hog pens, cellars and outbuildings it cannot be excelled.

Recommended by agricultural colleges.

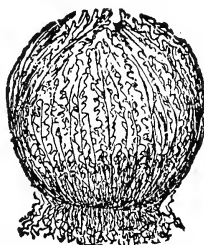

Prices, f. o. b. Blair, Nebr.

10 lbs. (makes 10 gallons).....	\$1.25
20 lbs. (makes 20 gallons).....	2.50
50 lbs. (makes 50 gallons).....	5.00

Bug Death

Bug Death kills bugs, but is not poisonous. Here is an insecticide that kills bugs but does not harm the plant or vine. Bug Death is not poisonous to human beings but it sure gets the bugs, etc., on Potatoes, Tomatoes, Cabbages, Currants, Melons, Beets and all other vegetables.

Price, 20 cents a lb.; 5 lbs. for 75 cents; 10 lbs., \$1.35, f. o. b. Blair, Nebr.

Resurrection Plant

Leg Bands

Resurrection Plant

The Resurrection Plant is a rare and curious plant. It will grow if roots are placed in a pan of water, and when taken out it curls up and goes to sleep, and when placed in water they grow again. Price, 15c each; two for 25 cents, postpaid.

Leg Bands

Mark your chickens with Leg Bands. We have them in Aluminum and Celluloid.

The Aluminum band is for grown chickens and is adjustable. They are numbered and numbers are clear and distinct. Prices, prepaid by mail, 25 for 40 cents; 50 for 75 cents.

We have the Celluloid leg band in 6 colors for grown chickens and half grown and baby chicks. Prices, prepaid by mail: For grown chickens, 12 for 35 cents; 25 for 65 cents; 50 for \$1.00 and 100 for \$1.75.

For half grown chicks, 25 for 40 cents; 50 for 60 cents; 100 for \$1.00.

For Baby chicks, 50 for 45 cents; 100 for 80 cents.

Victor Leg Bands in colors with printed numbers. Numbers can be seen ten to twelve feet away. These bands are used mostly by showmen on birds for exhibition purposes. Price, 12 for 50 cents; 25 for \$1.00.

Baskets for Shipping Eggs

Prices of Baskets F. O. B. Blair

For 15 eggs, 8c; each in half dozen lots or more.

For 30 eggs, 16c; each in half dozen lots or more.

For 100 eggs, 35c; each in half dozen lots or more.

We furnish lides for all the above baskets.

NOTHING LIKE IT

Cedar Bluffs, Nebr.

Aye Bros., Blair, Nebr.: Enclosed find money order for which please send me some of your Germikil. We think there is nothing like it. Yours truly, J. F. LUBKER.

GOOD FOR BABY TURKEYS

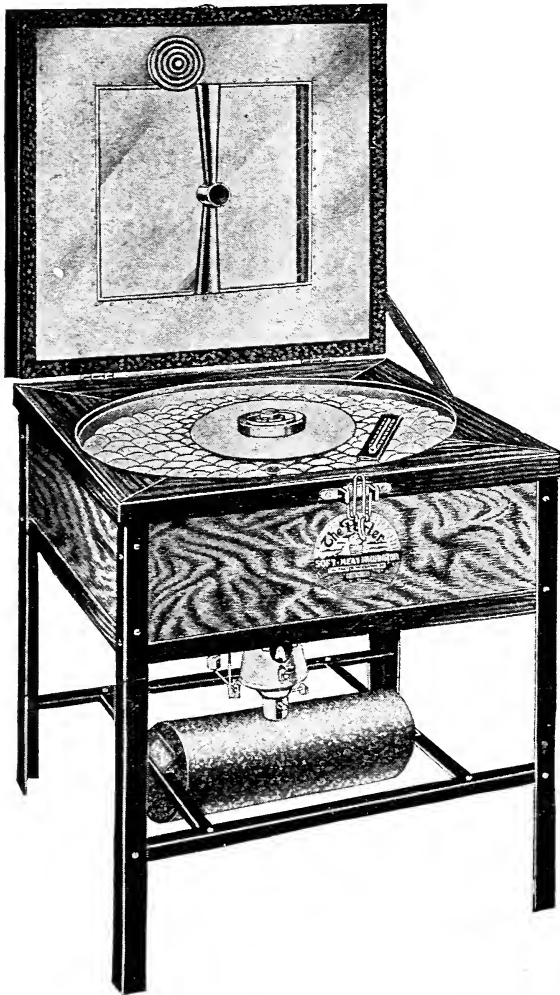

Austin, Colo.

Aye Bros., Blair, Nebr.: Please send me two boxes of Germikil for the enclosed check. Last year my little turkeys were sick and a neighbor gave me some of this remedy for them. I found it most excellent. Yours truly, MRS. S. H. RITTER.

Requires only 2 or 3 minutes' time a day.

Automatic Regulation of Heat.

**ALL SOFT-HEAT MACHINES ARE
SOLD UNDER A POSITIVE MAKE-
GOOD GUARANTEE.**

We have hundreds and hundreds of similar reports, many of them even better than these:

**291 Chicks From a Total of 313 Eggs—Never
Operated an Incubator Before**

The above is what Mr. A. J. Long of Marie, Texas, reported under date of August 14th, 1920. Here is what he says in the close of his letter: I like the Porter because I think it as near perfect as can be made. It requires so little attention.

Four Record Breaking Hatches

Seneca, Mo., R. 2, June 3rd, 1920.

Dear Sirs: My incubator has made another record hatch (fourth hatch since last spring) of 89 chicks from 90 fertile eggs. Can you make prompt shipment of No. 1 and 2 incubators? MRS. LELIA SILVEY.

**100% Hatch—No Cripples—Easy to Operate
and Saving in Oil**

The above heading covers a few of the statements given in a letter from Mr. G. A. Wright, Easton, Minnesota, August 5th, 1920.

**Soft-Heat Hatched Every Goose Egg and
Hatches Hen's Eggs as Well**

Mrs. G. H. Hohn, Custar, Ohio, writes us just recently as follows: I like the incubator better than any ever used. Hatched every goose egg I put in and the chicken eggs hatched as good as under hens. Like the round nest and the way it works.

**Has Run Several Incubators, But Soft-Heat
Is the Best of All**

is a statement made by Mr. L. F. Goodrich, White Plains, Georgia, in his letter of last April.

WHOLESALE PRICE LIST AND PRICES FOR SEEDS NOT QUOTED IN CATALOG.

BLAIR, NEBRASKA, JANUARY 1ST, 1921.

We don't know at this time, January 1, 1921, whether the following prices will remain during the sowing season but we have to make a start. Prices may go up or down before the sowing season is over, but grass seeds, like most everything that is produced in the corn belt, is a whole lot lower than they were last season and the trade in seeds will undoubtedly be larger than it was last season. All prices are subject to change without notice. Should prices go up or down we will send amount your money buys, or will write you whether or not to fill the order. We reserve the right to cancel order or write you whether or not we shall substitute if we happen to be out of kind of seed ordered. We guarantee our seeds to please you. You can keep seeds bought from us ten days and test it any way you want to, and if not entirely satisfied, return them and we will send your money back. That's fair! Don't you think so? But we do not guarantee a stand or a crop, for so much depends upon conditions over which we have no control. The prices quoted are for bushel or 100 pounds. If less than bushel or 100 pounds is ordered of course we must have a little more money, but send in your order and we will fix it up so it's all right.

114 BUSHEL OF CORN

—PER ACRE—

REID'S YELLOW DENT

Can you do as well? It depends on you. We have the seed and if you have the land and with a favorable season and proper care we think you can. Mr. Rohwer raised 100 bushels per acre from Reid's Yellow Dent seed he got from us. Mr. Hooks grew 90 bushels per acre, and we have letters from hundreds saying they grew from 75 to 80 bushels per acre from seed corn procured from us. The above parties grew these big crops before we made our latest improvement. The Reid's Yellow Dent we are offering this year is all from mother ears that produced from 100 to 114 bushels per acre. In making this improvement in our corn we paid no attention to anything except big yield, earliness and good quality. The men who are growing this corn for us report that it is about 10 days earlier than the old type of Reid's. \$4.50 per bushel. Ten bushel or more, \$4.25 per bushel. Bags free.

WE HAVE A FINE LOT OF

SWEET CORN

That we can offer at wholesale to parties that want to buy in full bag lots—two bushel to a bag. The price below is for full bag lots. If less is wanted, add 2 cents per lb.

\$1.50 WORTH OF GARDEN SEEDS FREE

WITH AN ORDER FOR

3 Boxes of Germikil at 60c Per Box

AND 20 CENTS ADDITIONAL TO COVER POSTAGE AND PACKING CHARGES

We want you to use **Germikil** and are going to make an extraordinary inducement for you to try it.

Germikil is the best remedy we know of for the prevention and cure of Roup, White Diarrhoea and Bowel Trouble in poultry, and we have testimonials from hundreds of our customers saying it is the best remedy they ever used in their poultry yard.

Poultry is high in price and you should do everything you can to prevent loss. We don't know of anything that beats **Germikil**. It is the only remedy we use for our poultry, and we handle thousands of chickens, geese, ducks and turkeys every year and our loss is very small.

Germikil has been used three years at the Nebraska State Fair in the Poultry Department and two years at the Nebraska Poultry Show and the secretary of both says results have been fine.

HERE IS OUR OFFER

**\$1.50 Worth of Assorted Garden Seeds in Packets
ABSOLUTELY FREE**

Such as Lettuce, Carrots, Cabbage, Parsnips, Cucumbers, Spinach, Radish, Tomatoes, Onions, Squash, Beans, Beets, Sweet Corn, Watermelon, Etc.—with an order for **THREE BOXES OF GERMIKIL AT 60 CENTS PER BOX AND 20 CENTS FOR PACKING, ETC.** In other words, send us \$2.00 and we will send you 3 boxes of **Germikil** together with Garden Seeds in packets amounting to \$1.50.

The Garden Seed and **Germikil** is put up and collection cannot be broken. Don't wait, but fill out order blank below at once. The offer below is good to old customers as well as new.

GERMIKIL

Moultrie, Georgia.
If you have a chicken who has a disease;
Give Germikil to him and he will rest at ease.
HARRY HALPERT.

Moultrie, Georgia.
I had a chick with feathers thick,
But the chick, he took the croup;
He lay around upon the ground,
My Dad said he had the roup.
My Uncle Bill got Germikil
And gave it to my chick,
And now he's well and looking swell;
And Germikil turned the trick.

MRS. A. I. HALPERT.

Inavale, Nebr.
If your chickens have disease,
And your poultry troubles large;
Just buy a box of Germikil,
And rest awhile at ease.

GAIL FEARN.

Summit, Nebr.
There is no remedy that will fill,
Or take the place of Germikil;
And when once used, you'll use it still,
For there is nothing better than Germikil.
LAURA K. TINKER.

Gothenburg, Nebr.
I use Germikil for large and small,
You bet it saves my chickens all.
I use Germikil; You bet I am smart,
I sold my chickens and got my start.

MRS. D. E. YOUNG.

Elmwood, Nebr.
I have used Germikil; I think it great;
While other remedies used were a fake.
My hens are healthy the year around,
A better roup cure could not be found.

MRS. WM. WILLETT.

Aye Bros., Blair, Neb.
